The Dollars and Cents of Shopping Centers Urban Land Institute,2006 Retrofitting Sprawl Emily Talen,2015-08-15 These twelve previously unpublished essays present innovative and practical ideas for addressing the harmful effects of sprawl Sprawl is not only an ongoing focus of specialized magazines like Dwell indeed Time magazine has cited recycling the suburbs as the second of Ten Ideas Changing the World Right Now While most conversations on sprawl tend to focus on its restriction this book presents an overview of current thinking on ways to fix repair and retrofit existing sprawl Chapters by planners geographers designers and architects present research grounded in diverse locales including Phoenix Arizona Seattle Washington Dublin Ohio and the Atlanta Georgia and Washington D C metro areas The authors address head on the most controversial aspects of sprawl issues of power and control justice and equity and American attitudes about regulating private development But they also put these issues in practical contexts bringing in examples of redesign that are already occurring around the country including the retrofitting of corridors and the repurposing of cul de sacs Whether fixing sprawl requires a cultural shift in thinking or a coordinated effort by local government these essays testify that a combination of forethought and creative thinking will be needed **Shopping Center Management** ,1999 **ICSC's Guide to Shopping Center Terms** ,1995-01-01 **Public Spaces, Marketplaces, and the Constitution** Anthony

Maniscalco,2015-10-15 Examines how the Supreme Court has banished free expression from shopping malls and other public spaces In spite of their public attractions and millions of visitors most shopping malls are now off limits to free speech and expressive activity The same may be said about many other public spaces and marketplaces in American cities and suburbs leaving scholars and other observers to wonder where civic engagement is lawfully permitted in the United States In Public Spaces Marketplaces and the Constitution Anthony Maniscalco draws on key legal decisions social theory and urban history to demonstrate that public spaces have been split apart from First Amendment protections while the expression of political ideas has been excluded from privately owned publicly accessible malls Today the traditional indoor suburban shopping mall that icon of modern American capitalism and culture is being replaced by outdoor retail centers Yet the law and courts have been slow to catch up Maniscalco argues that scholars students and the public must confront these innovations in commercial design and consumer practices as well as what they portend for contemporary metropolitan America and its civic spaces The ICSC Guide to Operating Shopping Centers the Smart Way International Council of Shopping Centers,1985

Architectural Record , *Economic rationale for visual configuration of space for rent and tenaning decision in shopping malls* Sumanta Deb,Keya Mitra,2016-12-21 Research Paper postgraduate from the year 2016 in the subject Art Architecture History of Construction grade 2 5 Indian Institute of Engineering Science and Technology Shibpur Indian Institute of Engineering Science and Technology language English abstract Organized retail formats are growing twice as fast as their traditional counterparts But in spite of that the mall management is concerned about the rising rate of vacancy leading to economic unsustainability The reason for high mall vacancy rates can be ascribed to faulty tenant placement and irrational rental plan Existing studies on the tenant mix decisions focus more on inter store externality and not on the spatial logic Moreover normal industry practice follows rule of thumb instead of any scientific approach A bid rent model for profit maximization of individual stores is solved to identify the relationship between area allocation and rental decision with the customer density at that point The customer density in turn depends on the accessibility and explained through visibility graph analysis and agent based simulation The findings support the superiority of configurational characteristic over metric distances A model for profit maximization of the entire shopping mall is proposed to explain the tenaning rental and anchor rent subsidization decisions based on logic of spatial configuration Space planning in this way can be considered as a tool for strategic decision making instead of an accommodator of functions **Real Estate Due Diligence** Mary Ann
