Unschooled Kerry McDonald, Peter Gray, 2019-05-07 Education has become synonymous with schooling but it doesn't have to be As schooling becomes increasingly standardized and test driven occupying more of childhood than ever before parents and educators are questioning the role of schooling in society Many are now exploring and creating alternatives In a compelling narrative that introduces historical and contemporary research on self directed education Unschooled also spotlights how a diverse group of individuals and organizations are evolving an old schooling model of education These innovators challenge the myth that children need to be taught in order to learn They are parents

who saw firsthand how schooling can dull children's natural curiosity and exuberance and others who decided early on to enable their children to learn without school. Educators who left public school classrooms discuss launching self-directed learning centers to allow young people's innate learning instincts to flourish and entrepreneurs explore their disillusionment with the teach and test approach of traditional schooling

Indoor Games That Teach (eBook) Robynne

Eagan, 1996-03-01 This resource shows you how to use active indoor fun to stimulate young learners with a cross section of hands-on and educational games for indoor settings. Children will master the basics and more by engaging their skills in board games, problem solving challenges, fact finding and review activities, math-based golf and marble games, paper folding and even square dancing. The games will motivate young learners, bring subject matter to life and keep children active even indoors.

Early Childhood Teacher Education on Cultural Competence NAECTE Urban Education Teacher Research Network, 2018-09-13 Early Childhood Teacher Education on Cultural Competence discusses how early childhood preservice teachers can use teacher research to explore and gain cultural competence, enabling them to support students and families from diverse backgrounds. The book opens by describing the role of the university in preparing culturally competent teachers in urban settings and then explores historical perspectives of cultural competence. Chapters then move toward more practical perspectives of supporting families from racially diverse backgrounds, understanding diverse families, interprofessional education and collaboration, teacher resiliency and social justice. Although the chapters focus on cultural competence in urban settings, they offer all early childhood teacher educators a challenge to address cultural competence in all settings.

Teaching Powerful Problem-Solving in Math Catherine C. Lewis, Akihiko Takahashi, Shelley Friedkin, Nora Houseman, Sara Liebert, 2025-08-22 Teaching Powerful Problem Solving in Math provides the first in-depth portrait of schoolwide lesson study showing how U.S. teachers at several schools used it to implement powerful problem-based mathematics instruction. Students learn mathematics by confronting a novel problem and building the new understanding of the mathematical concepts needed to solve it just as mathematicians would. By learning in this way, students discover the power of their own thinking and gain confidence that extends well beyond mathematics. This book introduces readers to urban elementary and K-8 schools where teachers have dramatically transformed math learning for teachers and for students. Readers will follow teachers as they transform instruction using schoolwide lesson study, building powerful new ways for educators to learn from each other and practice innovative teaching techniques. The authors use in-depth classroom portraits from the outset of schoolwide lesson study and three years later to illuminate the changes in mathematics instruction at a school that raised its proficiency on Smarter Balanced Assessment from 15% to 56%. Extensive resources and links are provided to help readers understand and build on the work of these schools, which is grounded in established principles of collective efficacy, intrinsic motivation and learner agency for both students and teachers. Book Features Shows how teaching through problem solving can erase the achievement gap in mathematics learning. Provides the first in-depth portrait of

schoolwide lesson study showing how U S teachers at several schools build it and use it to transform teaching Profiles teachers leading the transformation of instruction to achieve the ambitious vision of learning embodied in recent standards Uses photographs student work and detailed classroom descriptions to bring to life mathematics lessons in year 1 and year 4 of the school s work to build problem solving Provides examples and links to the strategies teachers use to make student thinking visible and actionable during mathematics lessons Includes lesson plans photographs of board work student journals school newsletters self assessment rubrics and dozens of links to the resources needed to begin using teaching through problem solving and school wide lesson study Provides long term teacher led solutions for professional learning and for mathematics instruction that have been shown to improve teacher retention and student proficiency How to Reach and Teach Children and Teens with ADD/ADHD Sandra F.
