Social Media: The Individual and Society

We live in an increasingly technological world. Individuals communicate via cellphone and computer.

The Internet is an unregulated and frequently unmediated environment – which is both a strength and a weakness. It is a strength because it promotes freedom of speech and expression and is a weakness as it can open the door to inappropriate content and behaviour.

The nature of the Internet has encouraged the development of online social networking. The existence of social networks challenges the individual to re-examine essential rights and freedoms, values and attitudes and how these could be affected within the fast-paced changing world of technology.

Terminology

Social Network Sites

Social network sites are web-based services that allow individuals to (1) create a public or semi-public profile within a bounded system such as Facebook or Myspace, (2) show a list of friends with whom they share a connection, and (3) view and explore their list of friends and those made by others within the system.

Twitter

Twitter is a very popular instant messaging system that lets a person send brief text messages up to 140 characters in length to a list of followers. Launched in 2006, Twitter was designed as a social network to keep friends and colleagues informed throughout the day. However, it has become widely used for commercial and political purposes to keep customers, voters and fans up-to-date as well as to encourage feedback.

Facebook

Facebook is a popular free social networking website that allows registered users to create profiles, upload photos and videos, send messages and keep in touch with friends, family and colleagues. The site is available in 37 different languages.

Flaming

Flaming is the act of posting or sending offensive messages over the Internet. These messages, called flames, may be posted within online discussion forums or newsgroups, or sent via email or instant messaging programs. The most common area where flaming takes place is online discussion forums, which are also called bulletin boards.
