Book Banning in 21st-Century America Emily J. M. Knox, 2015-01-16 Requests for the removal relocation and restriction of books also known as challenges occur with some frequency in the United States Book Banning in 21st Century American Libraries based on thirteen contemporary book challenge cases in schools and public libraries across the United States argues that understanding contemporary reading practices especially interpretive strategies is vital to understanding why people attempt to censor books in schools and public libraries Previous research on censorship tends to focus on legal frameworks centered on Supreme Court cases historical case studies and bibliographies of texts that are targeted for removal or relocation and is often concerned with how censorship occurs The current project on the other hand is focused on the why of censorship and posits that many censorship behaviors and practices such as challenging books are intimately tied to the how one understands the practice of reading and its effects on character development and behavior It discusses reading as a social practice that has changed over time and encompasses different physical modalities and interpretive strategies In order to understand why people challenge books it presents a model of how the practice of reading is understood by challengers including what it means to read a text and especially how one constructs the idea of appropriate reading materials The book is based on three different kinds sources The first consists of documents including requests for reconsideration and letters obtained via Freedom of Information Act requests to governing bodies produced in the course of challenge cases Recordings of book challenge public hearings constitute the second source of data Finally the third source of data is interviews with challengers themselves The book

offers a model of the reading practices of challengers It demonstrates that challengers are particularly influenced by what might be called a literal common sense orientation to text wherein there is little room for polysemic interpretation multiple meanings for text That is the meaning of texts is always clear and there is only one avenue for interpretation This common sense interpretive strategy is coupled with what Cathy Davidson calls undisciplined imagination wherein the reader is unable to maintain distance between the events in a text and his or her own response These reading practices broaden our understanding of why people attempt to censor books in public institutions *The Birmingham Quean* S. A. M.

Trainor,2010-06 We are to believe there was a time when *The Birmingham Quean* was just a poem a mock epic burlesque in which a fake pound coin told how she was won in a game of darts by a drag queen called Britannia Spears It parodied Pope s *The Rape of the Lock* Byron s *Don Juan* and an anonymous eighteenth century novel *The Birmingham Counterfeit* The transformation of this bit of picaresque doggerel into the sprawling work barely contained by this cover is the central mystery of a ludic novel It mirrors the unlikely story of a dirty little settlement of nailers and cutlers becoming the principle city of the Industrial Revolution by flooding the Restoration economy with counterfeit coins What remains is an absurd scholarly edition of a poem recast as a futuristic dystopia in which nothing is authentic It is also the tale of an impossible love affair that uncovers an impossible text by an impossible author It is as strange ironic sombre flashy and anarchic as the city to which it owes its existence *Diversity - The Brazilian Essence: Knowing Brazil By the Culture of Their People* Paulo

Franco,2014-06-17 The author got putting together in this work an original and well selected context that help us understanding who they are and how modern brazilian people live In a light language this book make us getting into the culture and tradition on day by day of brazilian people on deep way to understand why the word mix represent so well the nature of this singular people It s a perfect guide for you that want to visit Brazil on business or pleasure and essencial for those who want to study making friends or even to live on this interesting different and wonderful country Clauber Mendonca CEO Atrium Business Group *After College* Erica Young Reitz,2025-02-18 Erica Young Reitz helps college seniors and recent graduates navigate the complex transition to postcollege life Drawing on best practices and research on senior preparedness this practical guide addresses the top issues graduates face and is now updated to address the realities facing Gen Z in the 2020s
