ICEL 2018 13th International Conference on e-Learning Professor Eunice Ivala, 2018-07-05 **African Governance**

Report III 2013, 2013 The African Governance Report the most comprehensive report on governance in Africa assesses and monitors the progress of African countries on governance identifies capacity gaps in governance institutions and proposes policies and strategic interventions to improve governance on the continent This third edition of the Report while continuing to monitor governance trends adopts a thematic approach elections and the management of diversity in Africa Elections are central to democratic governance and the political management of diversity in plural societies While elections are held with greater regularity in Africa their content and quality remains suspect in many countries with Africa's rich diversity deployed as a combustible tool in electoral conflicts Elections have often triggered conflict with violence tensions acrimonies and sharp elite divisions surrounding electoral processes and outcomes a worrying trend for Africa's democratic future The Report investigates elections in the face of managing diversity in Africa It recommends major electoral institutional political and constitutional reforms to enable elections to facilitate the democratic management of diversity while significantly improving their quality and credibility These include reform of the party system to make it more inclusive and democratic a move to more proportional electoral systems and an increase in the autonomy and effectiveness of election management boards The Report argues that regional and subregional initiatives and frameworks for elections democracy and governance have to be implemented and monitored to improve electoral performance and promote democratic consolidation and stability Page 4 of cover

Research for Educational Change Jill Adler, Anna Sfard, 2016-06-17 Research for Educational Change presents ways in which educational research can fulfil its commitments to educational practice Focussing its discussion within the context of mathematics education it argues that while research generated insights can have beneficial effects on learning and teaching the question of how these effects are to be generated and sustained is far from evident The question of how to turn research into educational improvement is discussed here in the context of learning and teaching hindered by poverty and social injustice In the first part of the book four teams of researchers use different methodologies while analysing the same corpus of data collected in a South African mathematics classroom In the second part each of these teams makes a specific proposal about what can be done and how so that its research generated insights have a tangible beneficial impact on what is

happening in mathematical classrooms Combining two discourses that of researchers speaking to one another and that of researchers communicating their insights to those responsible for educational practice the book deals with the perennial question of communication between those who study educational processes and those who are directly responsible for teacher education educational research and classroom practices This book will be key reading for postgraduates researchers and academics in education and particularly in the areas of mathematics education education research teacher education and classroom practice It will also appeal to teacher educators practitioners and undergraduate students interested in educational research Empowering Science and Mathematics for Global Competitiveness Yuli Rahmawati, Peter Charles

Taylor, 2019-06-07 This conference proceedings focuses on enabling science and mathematics practitioners and citizens to respond to the pressing challenges of global competitiveness and sustainable development by transforming research and teaching of science and mathematics The proceedings consist of 82 papers presented at the Science and Mathematics International Conference SMIC 2018 organised by the Faculty of Mathematics and Natural Sciences Universitas Negeri Jakarta Indonesia The proceedings are organised in four parts Science Science Education Mathematics and Mathematics Education The papers contribute to our understanding of important contemporary issues in science especially nanotechnology materials and environmental science science education in particular environmental sustainability STEM and STEAM education 21st century skills technology education and green chemistry and mathematics and its application in statistics computer science and mathematics education African Spirituality, Politics, and Knowledge Systems Toyin Falola, 2022-03-10 Focusing on the three leading religious traditions in Africa African Traditional Religion Islam and Christianity this book shows how belief in the supremacy of sacred words compels actions and influences practices in contemporary Africa Sacred words are taken to mean holy texts as in divination the Quran and the Bible Toyin Falola evaluates how religious leaders engage with sacred words both orally and texts engendering practices that reveal the expression of religious beliefs the impact of those beliefs and the knowledge contained in them Attention is given to the key ideas in the words chosen by religious leaders and how they form a continuous knowledge system impacting the politics of managing society and people Policy, Politics and Poverty in South Africa Jeremy Seekings, Nicoli

Nattrass, Kasper, 2015-07-21 Seekings and Nattrass explain why poverty persisted in South Africa after the transition to democracy in 1994 The book examines how public policies both mitigated and reproduced poverty and explains how and why these policies were adopted The analysis offers lessons for the study of poverty elsewhere in the world **Engineering**, 1937 Struggling to Make the Grade: A Review of the Causes and Consequences of the Weak Outcomes of South Africa's Education System Mr. Montfort Mlachila, Tlalefang Moeletsi, 2019-03-01 While South Africa has made significant improvements in basic and tertiary education enrollment the country still suffers from significant challenges in the quality of educational achievement by almost any international metric The paper finds that money is clearly not the main issue since

the South Africa s education budget is comparable to OECD countries as a percent of GDP and exceeds that of most peer sub Saharan African countries in per capita terms The main explanatory factors are complex and multifaceted and are associated with insufficient subject knowledge of some teachers history race language geographic location and socio economic status Low educational achievement contributes to low productivity growth and high levels of poverty unemployment and inequality Drawing on the literature the paper sketches some policy considerations to guide the debate on what works and what does not
