Speechwriting in the Institutionalized Presidency Kenneth Collier, 2018-04-18 This book traces the evolution of the speechwriting process for presidents in the White House from the administration of Franklin Roosevelt to the present While institutionalization of the speechwriting process has often been blamed for bland presidential rhetoric this book draws out the many varied consequences of institutionalization on the speechwriting process Ultimately it concludes that the institutionalization of the process has actually served the presidency well by helping presidents avoid the adverse effects of poorly chosen words

**The Man Who Knew** Sebastian Mallaby, 2016-10-11 Exceptional Deeply researched and elegantly written As a description of the politics and pressures under which modern independent central banking has to operate the book is incomparable Financial Times The definitive biography of the most important economic statesman of our time from the bestselling author of *The Power Law* and *More Money Than God* Sebastian Mallaby's magisterial biography of Alan Greenspan the product of over five years of research based on untrammelled access to his subject and his closest professional and personal intimates brings into vivid focus the mysterious point where the government and the economy meet To understand Greenspan's story is to see the economic and political landscape of our time and the presidency from Reagan to George W Bush in a whole new light As the most influential economic statesman of his age Greenspan spent a lifetime grappling with a momentous shift the transformation of finance from the fixed and regulated system of the post war era to the free for all of the past quarter century The story of Greenspan is also the story of the making of modern finance for good and for ill Greenspan's life is a quintessential American success story raised by a single mother in the Jewish migr community of Washington Heights he was a math prodigy who found a niche as a stats crunching consultant A master at explaining the economic weather to captains of industry he translated that skill into advising Richard Nixon in his 1968 campaign This led to a perch on the White House Council of Economic Advisers and then to a dazzling array of business and government roles from which the path to the Fed was relatively clear A fire breathing libertarian and disciple of Ayn Rand in his youth who once called the Fed's creation a historic mistake Mallaby shows how Greenspan reinvented himself as a pragmatist once in power In his analysis and in his core mission of keeping inflation in check he was a maestro indeed and hailed as such At his retirement in 2006 he was lauded as the age's necessary man the veritable God in the machine the global economy's avatar His memoirs sold for record sums to publishers around the world But then came 2008 Mallaby's story lands with both feet on the great crash which did so much to damage Alan Greenspan's reputation Mallaby argues that the conventional wisdom is off base Greenspan wasn't a na ve ideologue who believed greater regulation was unnecessary He had pressed for greater regulation of some key areas of finance over the years and had gotten nowhere To argue that he didn't know the risks in irrational markets is to miss the point He knew more than almost anyone the question is why he didn't act and whether anyone else could or would have A close reading of Greenspan's life provides fascinating answers to these questions answers

whose lessons we would do well to heed Because perhaps Mallaby s greatest lesson is that economic statesmanship like political statesmanship is the art of the possible The Man Who Knew is a searching reckoning with what exactly comprised the art and the possible in the career of Alan Greenspan *Estimates of Mercury, PCBs, Dioxins, and HCB Releases in the U.S. Lake Superior Basin* Lake Superior Binational Program,1996 **Human-Computer Interaction -- INTERACT 2013** Paula Kotzé,Gary Marsden,Gitte Lindgaard,Janet Wesson,Marco Winckler,2013-07-30 The four volume set LNCS 8117 8120 constitutes the refereed proceedings of the 14th IFIP TC13 International Conference on Human Computer Interaction INTERACT 2013 held in Cape Town South Africa in September 2013 The 55 papers included in the second volume are organized in topical sections on E input output devices e readers whiteboards facilitating social behaviour and collaboration gaze enabled interaction design gesture and tactile user interfaces gesture based user interface design and interaction health medical devices humans and robots human work interaction design interface layout and data entry learning and knowledge sharing learning tools learning contexts managing the UX mobile interaction design and mobile phone applications *Considering Marijuana Legalization* Jonathan P. Caulkins,Beau Kilmer,Mark Kleiman,Robert J. MacCoun,Gregory Midgette,Pat Oglesby,Rosalie Liccardo Pacula,Peter H. Reuter,2015-01-16 Marijuana legalization is a controversial and multifaceted issue that is now the subject of serious debate In May 2014 Vermont Governor Peter Shumlin signed a bill requiring the Secretary of Administration to produce a report about various consequences of legalizing marijuana This resulting report provides a foundation for thinking about the various consequences of different policy options while being explicit about the uncertainties involved Middle Grades Research Journal Larry G. Daniel,2018-08-01 Middle Grades Research Journal MGRJ is a refereed peer reviewed journal that publishes original studies providing both empirical and theoretical frameworks that focus on middle grades education A variety of articles are published quarterly in March June September and December of each volume year **Playing Offstage** Sidney Homan,2017-02-01 Fourteen scholars who work on campus or in the theater address this issue of what it means to play offstage With their individual definition of what offstage could mean the results were predictably varied They employed a variety of critical approaches to the question of what happens when the play moves into the audience or beyond the physical playhouse itself What are the social cultural and political ramifications Questions of how and why actors play offstage admit the larger role their production has for the world outside the theater and hence this collection s sub title The Theater As a Presence or Factor in the Real World Among the various topics the essays include breaking the fourth wall and thereby making the audience part of the performance the theater of political protest one contributor staged *Waiting for Godot* in Zuccotti Park as part of the Occupy Wall Street protests landscape or town theater using citizens as actors or trekking theater where the production moves among various locations in the community the way principles of the theater can inform corporate management the genre of semi scripted comedy and quasi impromptu spectacle such as reality TV or flash mobs digitalized performances of Shakespeare the role of
