Yale Law professor Daniel Markovits attacking the false promise of meritocracy It is an axiom of American life that advantage
should be earned through ability and effort Even as the country divides itself at every turn the meritocratic ideal that social
and economic rewards should follow achievement rather than breeding reigns supreme Both Democrats and Republicans
insistently repeat meritocratic notions Meritocracy cuts to the heart of who we are It sustains the American dream But what
if both up and down the social ladder meritocracy is a sham Today meritocracy has become exactly what it was conceived to
resist a mechanism for the concentration and dynastic transmission of wealth and privilege across generations Upward
mobility has become a fantasy and the embattled middle classes are now more likely to sink into the working poor than to
rise into the professional elite At the same time meritocracy now ensnares even those who manage to claw their way to the
top requiring rich adults to work with crushing intensity exploiting their expensive educations in order to extract a return All
this is not the result of deviations or retreats from meritocracy but rather stems directly from meritocracy s successes This is
the radical argument that Daniel Markovits prosecutes with rare force Markovits is well placed to expose the sham of
meritocracy Having spent his life at elite universities he knows from the inside the corrosive system we are trapped within
Markovits also knows that if we understand that meritocratic inequality produces near universal harm we can cure it When
The Meritocracy Trap reveals the inner workings of the meritocratic machine it also illuminates the first steps outward
towards a new world that might once again afford dignity and prosperity to the American people **The Jewelers' Circular**
