Congress. House. Committee on Financial Services, 2014      **Official Gazette** Philippines, 2004      The Russian State and Russian Energy Companies, 1992-2018 Ingerid M. Opdahl, 2020-06-09 The Russian State and Russian Energy Companies analyses the development of relations between the state and five major energy companies and how this shaped Russia's foreign policy in the post Soviet region The book argues that the development of Russia's political economy mattered for foreign policy over the quarter of a century from 1992 to 2018 Energy companies roles in institutional development enabled them to influence foreign policy formation and they became available as tools to implement foreign policy The extent to which it happened for each company varied with their accessibility to the Russian state Institutional development increased state capacity in a way that strengthened Russia's political regime The book shows how the combined power of several companies in the gas oil electricity and nuclear energy industry was a key feature of Russian foreign policy both in bilateral relationships and in support of Russia's regional position In this way Russia's energy resources were converted to regional influence The book contributes to our understanding of Russia's political economy and its influence on foreign policy and of the formation of policy towards post Soviet states      **The Standing of Vocational Education and the Occupations It Serves** Stephen Billett, Barbara Elisabeth Stalder, Vibe Aarkrog, Sarojni Choy, Steven Hodge, Anh Hai Le, 2022-04-21 This book addresses what is perhaps the single most important issue for vocational education its relatively low standing in an era of high aspiration The work explores the nature extent and consequences for an educational sector that whilst having an increasingly important role in contemporary societies is seen to be of low standing across both countries with developed and developing economies Some of the standing is associated with the occupation it serves and this is highlighted in an era of high aspiration by young people and their parents The consequences are far reaching This includes how governments and community view and support vocational education parents and familiars advise about participation in it and young people's decision making associated with their post school pathways More than describing this problem the focus of this collection is how this issue can be redressed through the actions of supra government agencies governments schools in tertiary education institutions industry and professional bodies and employers It sets out the quality and extent of societal sentiments in shaping how vocational

education and the occupation it serves are projected across countries continents and cultures and offers a range of perspectives and contributions from scholars on how this issue might be redressed These contributions are drawn together and synthesised into sets of propositions practices and approaches directed towards governments schooling and tertiary education institutions educators researchers industry and professional bodies and employers In this way the book seeks to provide an authoritative seminal comprehensive and central text to understand and respond to this central issue for vocational education

*Subverting Consumerism* Robert Crocker,Keri Chiveralls,2018-07-24 There is now a widespread interest in reuse in many domains from opera houses built over old warehouses to vintage clothes and everyday goods incorporating repurposed materials or parts Despite its ubiquity this extensive creative work is typically seen in narrowly environmental terms as a means of reducing carbon resource use or waste However as this volume shows reuse also has aesthetic and cultural dimensions and a rich social currency invoked to consciously subvert the accelerated consumer culture responsible for our unfolding environmental crisis In three parts the essays in this book consider reuse in terms of values aesthetics and meaning its application in contemporary urban and spatial settings and the revival of social practices involving a more conscious recourse to reuse and repair These are bookended by the editors essays the first on the significant relationship between reuse and technological and social acceleration evident in the surrounding consumer society and the last on the multiple forms of reuse deployed in a contemporary alternative building practice and their contributions to presenting alternative ways of living in the world Challenging dominant understandings of waste and consumption

*Subverting Consumerism* shows how reuse has become a means for many to creatively engage with the past and to discover a continuity and sense of place eroded by the accelerative regimes of contemporary consumerism Becoming a means of resistance and offering a range of aesthetic social and economic possibilities reuse can be found to subvert and challenge the obsessive quest for the new found in contemporary consumerism
