Liza's England Pat Barker, 2001-04-07 The story of a woman who survives a divorce bringing up children by herself and a war only to see the community disintegrate in the name of progress She now fights her last battle English Novel Frank Northen Magill, 1981

Midwives of the Revolution Jane McDermid, Anna Hillyar, 2024-11-01 The Bolshevik seizure of power in 1917 and the ensuing communist regime have often been portrayed as a man's revolution with women as bystanders or even victims Midwives of the Revolution examines the powerful contribution made by women to the overthrow of tsarism in 1917 and their importance in the formative years of communism in Russia Focusing on the masses as well as the high ranking intelligentsia Midwives of the Revolution is the first sustained analysis of female involvement in the revolutionary era of Russian history The authors investigate the role of Bolshevik women and the various forms their participation took Drawing on the experiences of representative individuals the authors discuss the important relationship between Bolshevik women and the workers in the turbulent months of 1917 The authors demonstrate that women were an integral part of the revolutionary process and challenge assumptions that they served merely to ignite an essentially masculine revolt By placing women center stage without exaggerating their roles this study enriches our understanding of a momentous event in twentieth century history

Midwifery from the Tudors to the 21st Century Julia Allison, 2020-06-14 This book recounts the journey of English midwives over six centuries and their battle for survival as a discrete profession caring safely for childbearing women With a particular focus on sixteenth and twentieth century midwifery practice it includes new research which provides evidence of the identity social status lives families and practice of contemporary midwives and argues that the excellent care given by ecclesiastically licensed midwives in Tudor England was not bettered until the twentieth century Relying on a wide variety of archived and personally collected material this history illuminates the lives words professional experiences and outcomes of midwives It explores the place of women in society the development of midwifery education and regulation the seventeenth century arrival of the accoucheurs and the continuing drive by obstetricians to medicalise birth A fascinating and compelling read it highlights the politics and challenges that have shaped midwifery practice today and encourages readers to be confident in midwifery led care and giving women choices in childbirth It is an important read for all those interested in childbirth

Understanding Anxiety, Worry and Fear in Childbearing Kathryn Gutteridge, 2019-11-04 This book informs and enlighten health professionals on how the recognition of fearing women can change their episode of care during childbearing It gives practical advice on the way women present to services and the challenges that this invokes This work is the first of its kind aimed at clinicians to deconstruct ideology around childbearing myths and its challenges The authors review the evidence that exists and how modern maternity systems are responding to fear and shaping healthcare Whilst some worry and anxiety is expected and indeed considered normal during childbearing it has been suggested that this has now proliferated to a degree of abnormal for many women Why is

that and how is this panic spread Media portrayal of birth is suggested as unrealistic material and to show only that which is dramatic and horrific This has been considered as one factor influencing modern women Medicalisation technology and demand upon services is another consequence of providing almost all maternity care in hospitals Given that the majority of childbearing women are fit and healthy is this another causative factor By removing women from their homes and families at such a vulnerable time has a serious consequence for how she will experience her greatest leap of faith into motherhood All of these issues are explored and examined in the book with ideas and practical suggestions of what may be done to change this increasingly common problem This book is intended at midwives and clinicians working in maternity settings

A must read for women who want to know all of their choices in childbirth Choices of the Heart (The Midwives Book #3) Laurie Alice Eakes, 2013-01-01 Esther Cherrett comes from a proud line of midwives and was trained by her mother to take over the family calling But when a scandal threatens all she holds dear Esther takes a position as a teacher in the western mountains of Virginia instead There she finds herself in the midst of a deadly family feud and courted by two men on opposite sides of the conflict When it seems as though her past has followed her all the way into the mountains all she wants is to run away again In this gripping story of trust deception and bittersweet loss a young woman learns the true meaning of choices of the heart **Midwives, Society and Childbirth** Hilary Marland, Anne Marie Rafferty, 2002-11 Questioning many conventional historical assumptions this text seeks to provide a better understanding of the effect on midwives of the unprecedented progress of science particularly obstetric science in the 20th century Intersectionality in Feminist and Queer Movements Elizabeth Evans, Eléonore Lépinard, 2019-11-26 Examining the ways in which feminist and queer activists confront privilege through the use of intersectionality this edited collection presents empirical case studies from around the world to consider how intersectionality has been taken up or indeed contested by activists in order to expose and resist privilege The volume sets out three key ways in which intersectionality operates within feminist and queer movements it is used as a collective identity as a strategy for forming coalitions and as a repertoire for inclusivity The case studies presented in this book then evaluate the extent to which some or all of these types of intersectional activism are used to confront manifestations of privilege Drawing upon a wide range of cases from across time and space this volume explores the difficulties with which activists often grapple when it comes to translating the desire for intersectionality into a praxis which confronts privilege Addressing inter related and politically relevant questions concerning how we apply and theorise intersectionality in our studies of feminist and queer movements this timely edited collection will be of interest to students and scholars from across the social sciences and humanities with an interest in gender and feminism LGBT and queer studies and social movement studies Phenie's World M. J. Cobb Young, 2005-02 *Midwifery and the Medicalization of Childbirth* Edwin R. Van Teijlingen, 2004 This book provides an introduction to the sociological study of midwifery The readings have been selected to highlight the interplay between midwifery and medicine reflecting the medicalization of childbirth It highlights the major themes in both a historical and a current context as well as western and non western societies Two major themes underlie the organization of this book that the conception of midwifery must be broadened to encompass a sociological perspective and that the ongoing trend toward the medicalization of midwifery is crucial to an understanding of the historical current and future status of midwifery By medicalization of childbirth and midwifery the author mean the increasing tendency for women to prefer a hospital delivery to a home delivery the increasing trend toward the use of technology and clinical intervention in childbirth and the determination of medical practitioners to confine the role played by midwives in pregnancy and childbirth if any to a purely subordinate one **Reproductive Losses** Christa

Blessed Events Pamela E. Klassen,2001-10-07 Blessed Events explores how women who give birth at home use religion to make sense of their births and in turn draw on their birthing experiences to bring meaning to their lives and families Pamela Klassen introduces a surprisingly diverse group of women in their own words while also setting their birth stories within wider social political and economic contexts In doing so she emerges with a study that disrupts conventional views of both childbirth and religion by blurring assumed divisions

between conservative and feminist women and by taking childbirth seriously as a religious act Most American women who have a choice give birth in a hospital and request pain medication Yet enough women choose and advocate unmedicated home birth and do so for carefully articulated reasons social resistance among them to constitute a movement Klassen investigates why women whose religious affiliations range from Old Order Amish to Reform Judaism to goddess centered spirituality defy majority opinion the medical establishment and sometimes the law to have their babies at home In considering their interpretations including their critiques of the dominant medical model of childbirth and their views on labor pain she examines the kinds of agency afforded to or denied women as they derive religious meanings from childbirth Throughout she identifies tensions and affinities between feminist and traditionalist appraisals of the symbolic meaning of birth and the power of women What does home birth a woman centered movement working to return birth to women s control mean in practice for women s gender and religious identities Is this supreme valuing of procreation and motherhood constraining or does it open up new realms of cultural and social power for women By asking these questions while remaining cognizant of religion s significance Blessed Events challenges both feminist and traditionalist accounts of childbearing while broadening our understanding of how religion is lived in contemporary America *Motherhood and Space* C. Wiedmer, S. Hardy, 2016-04-30 This is a collection of essays on the spatial dimensions of motherhood Engaging both theoretical and empirical perspectives contributors describe the intersection of space and gender across a variety of contexts with both familiar and unexpected territories explored Laboring On Wendy Simonds, Barbara Katz Rothman, Bari Meltzer Norman, 2013-10-23 Facing the polar forces of an epidemic of Cesarean sections and epidurals and home like labor rooms American birth is in transition Caught between the most extreme medicalization best seen in a Cesarean section rate of nearly 30 percent and a rhetoric of women s choices and the natural women and their midwives doulas obstetricians and nurses labor on *Laboring On* offers the voices of all of these practitioners all women trying to help women as they struggle with this increasingly split vision of birth Updating Barbara Katz Rothman s now classic *In Labor* the first feminist sociological analysis of birth in the United States *Laboring On* gives a comprehensive picture of the ever changing American birth practices and often conflicting visions of birth practitioners The authors deftly weave compelling accounts of birth work by midwives doulas obstetricians and nurses into the larger sociohistorical context of health care practices and activism and offer provocative arguments about the current state of affairs and the future of birth in America **They Were Still Born** Janel C. Atlas, 2010-12-16 Stillbirth defined as the death of an infant between 20 weeks gestation and birth is a tragedy repeated thirty thousand times every year in the United States That means more than eighty mothers a day feel their babies slip silently from their bodies the only sound in the delivery room their own sobs Eighty stillborn babies a day means heartbroken families mourn the death of children who will never breathe gurgle learn to walk or go to school In 2006 Janel Atlas became one of those mothers who left the hospital with empty arms her second daughter Beatrice Dianne was stillborn
