Rankings and the Reshaping of Higher Education Ellen Hazelkorn, 2015-03-23 University rankings have gained popularity around the world and are now a significant factor shaping reputation This second edition updates Ellen Hazelkorn's first comprehensive study of rankings from a global perspective drawing in new original research and extensive analysis It is essential reading for policymakers managers and scholars

University Rankings Jung Cheol Shin, Robert K. Toutkoushian, Ulrich Teichler, 2011-06-06 This ground breaking and exhaustive analysis of university ranking surveys

scrutinizes their theoretical bases methodological issues societal impact and policy implications providing readers with a deep understanding of these controversial comparators The authors propose that university rankings are misused by policymakers and institutional leaders alike They assert that these interested parties overlook the highly problematic internal logic of ranking methodologies even as they obsess over the surveys assessment of their status The result is that institutions suffer from short termism realigning their resources to maximize their relative rankings While rankings are widely used in policy and academic discussions this is the first book to explore the theoretical and methodological issues of ranking itself It is a welcome contribution to an often highly charged debate Far from showing how to manipulate the system this collection of work by key researchers aims to enlighten interested parties *The Global Academic Rankings Game* Maria

Yudkevich, Philip Altbach, Laura Rumbley, 2016-03-02 The Global Academic Rankings Game provides a much needed perspective on how countries and universities react to academic rankings Based on a unified case methodology of eleven key countries and academic institutions this comprehensive volume provides expert analysis on this emerging phenomenon at a time when world rankings are becoming increasingly visible and influential on the international stage Each chapter provides an overview of government and national policies as well as an in depth examination of the impact that rankings have played on policy practice and academic life in Australia Chile China Germany Malaysia the Netherlands Poland Russia Turkey the United Kingdom and the United States The Global Academic Rankings Game contributes to the continuing debate about the influence of rankings in higher education and is an invaluable resource for higher education scholars and administrators as they tackle rankings in their own national and institutional contexts Admission Matters Sally P. Springer, Joyce Vining

Morgan, Nancy Griesemer, Jon Reider, 2023-06-23 The most up to date version of the best selling guide to college admissions for over twenty years Newly revised and thoroughly updated the fifth edition of Admission Matters continues to be the go to guide for students and families seeking help with the college admissions process Higher education experts Sally P Springer Ph D Joyce Vining Morgan Ph D Nancy Griesemer M A and Jon Reider Ph D deliver a practical and accessible roadmap for a successful admissions outcome whether the student is a high school freshman or a senior about to apply to college Reassuring and easy to read Admission Matters provides deep insight into a process that has become increasingly complex and unpredictable with each passing year In the fifth edition readers will learn how to build a balanced college list when to apply what goes into crafting a compelling application how colleges make decisions how financial aid works and more Admission Matters offers real world expert advice for all students whether they re aiming for an Ivy or a state school close to home The book provides practical guidance for students and families whether they come from an under resourced background or one that has provided abundant opportunities Admission Matters also includes much needed information for students with special circumstances including students with disabilities international students transfers and non traditional students Athletes artists and performers and homeschoolers will also have many of their questions answered as they plan for

and apply to college Admission Matters also provides the latest information on The shift to test optional or test free admissions at many schools and what that means for you The transition to an adaptive digital format for the SAT Changes to the federal process for financial aid What selective colleges are increasingly looking for when faced with growing numbers of applications Differences among colleges and how to choose the best fit schools Early decision and early action applications and when they make sense And much more The latest edition of Admission Matters remains the gold standard in guides to the ever changing and often intimidating process of college admissions

University Rankings, Diversity, and the New Landscape of Higher Education, 2019-02-18 University rankings are a relatively new phenomenon in higher education Although quite an established practice in the U S it is only within the last decade that attempts to analyse university performance have spread to the rest of the world and that we also have seen new global rankings appear rankings attempting to measure university performance beyond national borders No wonder that this trend is accompanied by a growing interest in studying rankings throughout the world This book is written as part of the effort to better understand rankings and their effects on higher education A serious approach towards university rankings implies that rankings should be analysed properly including the methods used and the indicators chosen and investigate the objectives claimed If university rankings are considered as consumer information then everyone should have an interest in basing such guidance on valid and reliable data and methodology A serious analysis should also discuss the wider implications of rankings as an emerging phenomenon in higher education Consequently the contributions to this book investigate and analyse how different rankings work how they reach their conclusions and on what data and methodology they are built Furthermore it provides a critical reflection about the impact of rankings on higher education how and in what way rankings influence policy making the structure of the sector or the internal life of the sector
