Surviving in the Newspaper Business Jim Willis, 1988-06-22 Willis almost total textbook analysis of today's newspaper makes *Surviving in the Newspaper Business* precisely what it claims to be A how to guide to newspaper management in the 1980s and beyond a set of unified principles for successful management It explains the supervision and organization of each department and stresses the importance of keeping the paper responsive to the needs of its readers advertisers and somewhat surprisingly even its employees Willis talks about advertising circulation and marketing strategies and how to deal with competition from TV the suburban weeklies and labor unions He looks at the editor as a people manager something that more than one tradition bound editor has been unable to do for himself The book has sample budgets and organizational charts and even a discussion of the relative merits of adult vs youth carriers Newspaper Research Journal Professor Jim Willis book is a nicely condensed overview of the newspaper as a business Though it is aimed at journalism students enrolled in newspaper management classes it is also worthwhile reading for the curious reporter or copy editor who knows little about how newspapers make and spend money The book is sprinkled with good common sense about balancing newspapers as a business against newspapering as good journalism Professor Willis makes a gallant attempt to make sure students understand that though the newspaper must make a profit to survive it will never truly excel unless it produces a good news editorial product ASNE Bulletin *Surviving in the Newspaper Business* is a how to do it guide to newspaper management for the 1980s and beyond It presents a set of unified principles for successful management and exposes the student to the primary mission of the newspaper to deliver a quality product to the depth and breadth of the marketplace Stressing the importance of the total newspaper concept Willis portrays the successful newspaper as integrated internally among departments and externally with its readership and advertisers In addition he analyzes the newspaper's industrial environment discusses management survival strategies considers business and finance plans and assesses organizational behavior in the newsroom Included are a series of hands on case studies offering further insights into topics discussed

The Commercialization of News in the Nineteenth Century Gerald J. Baldasty, 1992-11-15 *The Commercialization of News in the Nineteenth Century* traces the major transformation of newspapers from a politically based press to a commercially based press in the nineteenth century Gerald J Baldasty argues that broad changes in American society the national economy and the newspaper industry brought about this dramatic shift Increasingly in the nineteenth century news became a commodity valued more for its profitability than for its role in informing or persuading the public on political issues Newspapers started out as highly partisan adjuncts of political parties As advertisers replaced political parties as the chief financial support of the press they influenced newspapers in directing their content toward consumers especially women The results were recipes fiction contests and

features on everything from sports to fashion alongside more standard news about politics Baldasty makes use of nineteenth century materials newspapers from throughout the era manuscript letters from journalists and politicians journalism and advertising trade publications government reports to document the changing role of the press during the period He identifies three important phases the partisan newspapers of the Jacksonian era 1825 1835 the transition of the press in the middle of the century and the influence of commercialization of the news in the last two decades of the century Effective Advertising Strategies for Your Business Cong Li,2014-08-01 As the media landscape has evolved over the past few years especially with the emergence of interactive and social media the philosophy of advertising is significantly changing Most businesses realize that the days when they relied on three national networks ABC NBC and CBS and a few national newspapers to advertise are gone thus they begin to find alternatives to standardized advertising Many of them begin to adopt more individualized advertising approaches empowered by Internet technologies This book outlines three fundamental strategies of advertising standardized targeted and individualized It describes each strategy in detail and discusses the pros and cons of each The importance of collecting consumer insights and incorporating those insights into advertising messages are also highlighted Although a few high technology companies such as Google Facebook and Amazon are showing success in delivering individualized advertising messages to consumers this approach including both personalization and customization is not suitable for all businesses No single strategy is absolutely more effective than the others however inside you are given a real strategy based on a scrutiny of the value proposition of the business and expectations of consumers **Department of Defense Appropriations for Fiscal Year 1974: Views of Senators, budget amendments, appeals from House action** United States.
