### **Evidence-Based Imaging in Pediatrics** Hansel J.

Otero,Summer L. Kaplan,L. Santiago Medina,C. Craig Blackmore,Kimberly E. Applegate,2024-08-31 This book provides evidence based guidance for pediatric imaging to radiologists pediatricians and all subspecialists caring for children as well as policy advocates While the majority of pediatric radiology books concentrate on diagnosis this book highlights how imaging should be used in optimal care allowing comparisons between different modalities and addressing follow up complications and the issue of timing of imaging The primary objective of this book is to provide a summary of appropriate imaging use in terms of modality and timing based on the best available evidence The book therefore acts as a resource for optimized clinical care of children and effective decision making A secondary objective is to collate the evidence based practices that constitute quality care for children in the setting of value based imaging Radiologists are often in the position of helping clinicians decide when and how to image children with suspected diseases or confirmed diagnoses However traditional residency training has done little to fulfill the need for this up to date evidence knowledge Moreover in spite of furthering subspecialization of the field the great majority of children s imaging and care occur outside of children s hospitals where clinicians and radiologist might need this type of general guidance for establishing best practices The book is divided in two parts non diagnostic considerations such as evidence based imaging safety value and the practice of radiology in low resource settings and a second larger clinical component divided in prenatal oncology neurological musculoskeletal cardiothoracic and abdominal imaging This new edition incorporates changes in practice and guidelines in the decade since the first edition was written with many new chapters in emerging topics including prenatal oncology and neurological imaging This is an ideal guide for radiologists pediatricians policy advocates and all healthcare professionals caring for children
