Lephalale College Application:

FET Colleges South Africa. Department of Education, 2007 Accessing Post-School Studies Venicia McGhie & Madge du Preez, 2017-12-01 Accessing Post School Studies A student's GPS to successful learning makes a valuable contribution to often problematic and pertinent South African higher education issues such as student access and success student learning student support and student engagement In this regard the authors draw on the works of higher education theorists such as Kuh Tinto Marton and Sij The book is primarily a helpful resource for South African learners in school students at universities life orientation teachers as well as parents of prospective university students It will especially assist students to adapt to the university environment Prof Victor N Teise Sol Plaatje University Kimberley South Africa **Shaping the Future of South Africa's Youth** Helene Perold, Nico Cloete, Joy Papier, 2012 Why solving ongoing problems with the NQF National Qualifications Framework matters The challenges unemployment imposes on youth The challenge of youth to work transitions an international perspective A statistical overview of further education and training colleges Strengthening the capacity of FET Colleges to meet the needs of young people Higher education and an expanded post school educational system Trends in training in South Africa Key issues in the assessment of South Africa's national skills development strategy Opening the doors of learning Viewing the post school education and training landscape from a youth perspective *Space and planning in secondary cities* Lochner Marais, Verna Nel, 2019-09-01 Much of the urban research focuses on the large metropolitan areas in South Africa This book assesses spatial planning in the second tier cities of the country Secondary cities are vital as they perform essential regional and in some cases global economic roles and help to distribute the population of a country more evenly across its surface Apartheid planning left South African cities fragmented segregated and with low densities Post apartheid policies aim to reverse these realities by emphasising integration higher densities and upgrading Achieving these aims has been challenging and often the historical patterns continue The evidence shows that two opposing patterns prevail namely increased densities and continued urban sprawl This book presents ten case studies of spatial planning and spatial transformation in secondary cities of South Africa The book frames these case studies against complexity theory and suggests that the post apartheid response to apartheid planning represents a linear deviation from history The ten case studies then reveal how difficult it is for local decision makers to find appropriate responses and how current responses often result in contradictory results Often these cities are highly vulnerable and they find it difficult to plan in the context of uncertainty The book also highlights how these cities find it difficult to stand on their own against the influence of interest groups property developers mining companies traditional authorities other spheres of government The main reasons include weak municipal finance statements the dependence on national and provincial government for capital expenditure limited investment in infrastructure maintenance the lack of planning capacity the inability to implement plans and the unintended and sometimes contrary outcomes of post apartheid planning policies *The Promise of Planning* Philip

Harrison, Alison Todes, 2024-07-10 *The Promise of Planning* explores the experience of planning internationally since the global financial crisis focusing on South Africa. The book is a response to a decade plus in which state led planning has re-emerged as a putative means for achieving developmental goals as indicated in global initiatives such as the New Urban Agenda and where planning in South Africa has consolidated in terms of its legal and policy basis. However the return of planning is happening in an inauspicious context with economic fragilities technological shifts political populism institutional complexities and more threatening to upturn the new promise of planning. The book provides a careful analytical account of planning in South Africa and how and why its promises have been difficult to achieve. Building on the authors previous book *Planning and Transformation* the book sheds light on planning as an increasingly complex and diverse governmental practice within a perpetually changing world. It can be used as a resource for planners who must make good on the new promise of planning while navigating the risks and threats of the contemporary world as well as students and faculty interested in international planning debates and the South African case. [South Africa](#) Angus Douglas, 2022-12-28 In this unflinching examination of post apartheid South Africa Angus Douglas offers a provocative critique of the nation's complex racial dynamics and political landscape. Drawing on personal experiences and historical analysis Douglas challenges conventional narratives about race civilization and governance in a country still grappling with its divided past. Douglas takes readers on a journey through South Africa's tumultuous transition from white minority rule to African majority governance exploring the unresolved tensions that continue to shape national identity. From the 2021 riots to state capture under Jacob Zuma from the legacies of figures like Jan Smuts and Steve Biko to the contemporary challenges of tribal politics and race relations the book offers an insider's perspective on a society at a crossroads. Neither sparing white South Africans from criticism nor indulging in simplistic post colonial narratives Douglas argues that South Africa's future depends on honest dialogue about the nature of race civilization and the responsibilities of citizenship. His central thesis that indigenous race cultures and European race cultures must find common ground while acknowledging their differences will challenge readers across the political spectrum. Bold erudite and deeply personal this book provides essential context for understanding one of the world's most fascinating and troubled democracies as it struggles to define its identity in the 21st century. If you enjoyed *My Traitor's Heart* *Country of My Skull* and *Born a Crime* you'll love *South Africa In the Name of the Father*.
