The chapters provide readers with a context and practical application examples for each method. They present a distinctive opportunity for social researchers from a range of disciplines in particular tourism to examine how to adapt the wide variety of qualitative approaches to their particular research needs.

Tourism and Poverty Reduction Anna Spenceley, Dorothea Meyer, 2017-10-02 Over the past decade there have been an increasing number of publications that have analysed and critiqued the potential of tourism to be a mechanism for poverty reduction in less economically developed countries (LEDCs). This book showcases work by established and emerging researchers that provides new thinking and tests previously made assumptions providing an essential guide for students, practitioners and academics. This book advances our understanding of the changes and ways forward in the field of sustainable tourism development. Five main themes are illustrated throughout the book: 1. measuring impacts of tourism on poverty; 2. the need to evaluate whether interventions that aim to reduce poverty are effective; 3. how unbalanced power relations and weak governance can undermine efforts; 4. the importance of the private sector's use of pro-poor business practices; and 5. the value of using multidisciplinary and multi-method research approaches. Furthermore, the book shows that academic research findings can be used practically in destinations and how practitioners can benefit from sharing their experiences with academic scholars. This book was based on a special issue and various articles from the Journal of Sustainable Tourism.

Tourism Impacts, Planning and Management Peter Mason, 2012-08-06 Tourism Impacts, Planning and Management is a unique text which links these three key areas of tourism: impacts, planning and management. Tourism impacts are multi-faceted and therefore are difficult to plan for and manage. This book looks at all the key players involved: be they tourists, host communities or industry members and considers a number of approaches and techniques for managing tourism successfully. Divided into four parts, this text discusses: The growth, development and impacts of tourism; Tourism planning and management concepts, issues and key players; Tools and techniques in tourism planning and management; education, regulation and information technology. The future of tourism planning and management; issues of sustainability and the future. Up-to-date international case studies are used for example: the impacts of 9/11 and terrorism in Bali to illustrate and provide a real-life context for the theories discussed. Exercises are also included to consolidate learning.
