Memorandum Of Geography Paper 1 Final Exam 2013:

The Routledge Companion to Bourdieu's 'Distinction' Philippe Coulangeon, Julien Duval, 2014-10-30 This edited collection explores the genesis of Bourdieu's classical book *Distinction* and its international career in contemporary Social Sciences. It includes contributions from contemporary sociologists from diverse countries who question the theoretical legacy of this book in various fields and national contexts. Invited authors review and exemplify current controversies concerning the theses promoted in *Distinction* in the sociology of culture, lifestyles, social classes and stratification, with a specific attention dedicated to the emerging forms of cultural capital and the logics of distinction that occur in relation to material consumption or bodily practices. They also empirically illustrate the theoretical contribution of *Distinction* in relation with such notions as field or habitus, which fruitfulness is emphasized in relation with some methodological innovations of the book. In this respect, a special focus is put on the emerging stream of distinction studies and on the opportunities offered by the geometrical data analysis of social spaces.

States of Fragility 2016 Understanding Violence OECD, 2016-11-30 The world is getting more violent and violence is occurring in surprising places. Over the past 15 years, 3.34 billion people or almost half of the world's population have been affected by violence. The number of violent conflicts is decreasing but conflicts are killing more people.

Earned Citizenship Michael J. Sullivan, 2019-03-19 The migration and settlement of 11 million unauthorized immigrants is among the leading political challenges facing the United States today. The majority of unauthorized immigrants in the U.S. have been here for more than five years and are settling into American communities, working, forming families and serving in the military, even though they may be detained and deported if they are discovered. An open question remains as to what to do about unauthorized immigrants who are already living in the United States. On one hand, it is important that the government sends a message that future violations of immigration law will not be tolerated. On the other side, a deeper ethical dilemma is the focus of this book: what do the state and citizens owe to unauthorized immigrants who have served their adopted country? *Earned Citizenship* argues that long-term unauthorized immigrant residents should be able to earn legalization and a pathway to citizenship through service in their adopted communities. Their service would act as restitution for immigration law violations. Military service in particular would merit naturalization in countries with a strong citizen-soldier tradition, including the United States. The book also considers the civic value of caregiving as a service to citizens and the country, contending that family immigration policies should be expanded to recognize the importance of caregiving duties for dependents. This argument is part of a broader project in political theory and public policy aimed at reconciling civic republicanism with a feminist ethic of care and its emphasis on dependency work. As a whole, *Earned Citizenship* provides a non-humanitarian justification for legalizing unauthorized immigrants based on their contributions to citizens and institutions in their adopted nation.
