web light sound and waves in the ocean are common examples of waves sound and water waves are mechanical waves meaning they require a medium to travel through the medium may be a solid a liquid or a gas and the speed of the wave depends on the material properties of the medium through which it is traveling

web we begin our study of waves in this first unit of physics 7c with an introduction to waves and then a thorough development of the harmonic plane wave model which we will use extensively to model and understand a wide variety of wave phenomena in this section we will familiarize ourselves with waves by focusing on material waves
