English Nsc Paper November Memorandum 2013

Mark Kramer, Vit Smetana

English Nsc Paper November Memorandum 2013:

Assured Destruction David Bath, 2020-03-15 *Assured Destruction* Building the Ballistic Missile Culture of the U S Air Force documents the rapid development of nuclear ballistic missiles in the United States and their equally swift demise after the Cuban Missile Crisis revealing how these drastic changes negatively influenced both the Air Force and the missile community David W Bath contends that the struggle to create and control nuclear ballistic missiles threatened both the dominance of the United States during an intensifying Cold War and the strategic airpower mission of the newly created Air Force The book details the strenuous efforts required to create and prepare a missile arsenal before the Cuban Missile Crisis which occurred only five years after the first missile was declared operational It uses the personal recollections of former missileers and the professional military education theses they wrote to highlight some of the concerns that have faced the missileers who operated and worked on these powerful weapons from 1957 to the present The highlight of the book however is the personal stories of the missileers who served during the missile crisis revealing the efforts that they went to in order to prepare these unique and untried weapons for what many thought might become the third world war *Freedom on the Offensive* William Michael Schmidli, 2022-09-15 In *Freedom on the Offensive* William Michael Schmidli illuminates how the Reagan administration's embrace of democracy promotion was a defining development in US foreign relations in the late twentieth century Reagan used democracy promotion to refashion the bipartisan Cold War consensus that had collapsed in the late 1960s amid opposition to the Vietnam War Over the course of the 1980s the initiative led to a greater institutionalization of human rights narrowly defined to include political rights and civil liberties and to exclude social and economic rights as a US foreign policy priority Democracy promotion thus served to legitimize a distinctive form of US interventionism and to underpin the Reagan administration's aggressive Cold War foreign policies Drawing on newly available archival materials and featuring a range of perspectives from top level policymakers and politicians to grassroots activists and militants this study makes a defining contribution to our understanding of human rights ideas and the projection of American power during the final decade of the Cold War Using Reagan's undeclared war on Nicaragua as a case study in US interventionism *Freedom on the Offensive* explores how democracy promotion emerged as the centerpiece of an increasingly robust US human rights agenda Yet this initiative also became intertwined with deeply undemocratic practices that misled the American people violated US law and contributed to immense human and material destruction Pursued through civil society or low cost military interventions and rooted in the neoliberal imperatives of US led globalization Reagan's democracy promotion initiative had major implications for post Cold War US foreign policy *Arc of Containment* Wen-Qing Ngoei, 2019-05-15 *Arc of Containment* recasts the history of American empire in Southeast and East Asia from World War II through the end of American intervention in Vietnam Setting aside the classic story of anxiety about falling dominoes Wen Qing Ngoei articulates a new regional history premised on strong security and sure containment guaranteed

by Anglo American cooperation Ngoei argues that anticommunist nationalism in Southeast Asia intersected with preexisting local antipathy toward China and the Chinese diaspora to usher the region from European dominated colonialism to US hegemony Central to this revisionary strategic assessment is the place of British power and the effects of direct neocolonial military might and less overt cultural influences based on decades of colonial rule as well as the considerable influence of Southeast Asian actors upon Anglo American imperial strategy throughout the post war period Arc of Containment demonstrates that American failure in Vietnam had less long term consequences than widely believed because British pro West nationalism had been firmly entrenched twenty plus years earlier In effect Ngoei argues the Cold War in Southeast Asia was but one violent chapter in the continuous history of western imperialism in the region in the twentieth century

Cold War Frequencies Richard H. Cummings, 2021-04-09 Published for the first time the history of the CIA's clandestine short wave radio broadcasts to Eastern Europe and the USSR during the early Cold War is covered in depth Chapters describe the gray broadcasting of Radio Free Europe and Radio Liberty in Munich clandestine or black radio broadcasts from Radio Nacional de Espana in Madrid to Estonia Latvia Lithuania and Ukraine transmissions to Bulgaria Romania Albania Ukraine and the USSR from a secret site near Athens and broadcasts to Byelorussia and Slovakia Infiltrated behind the Iron Curtain through dangerous air drops and boat landings CIA and other intelligence service agents faced counterespionage kidnapping assassination arrest and imprisonment Excerpts from broadcasts taken from monitoring reports of Eastern Europe intelligence agencies are included

Intelligence Studies in Britain and the US Christopher R. Moran, 2013-03-31 The first introduction to writing about intelligence and intelligence services Secrecy has never stopped people from writing about intelligence From memoirs and academic texts to conspiracy laden exposes and spy novels writing on intelligence abounds Now this new account uncovers intelligence historiography's hugely important role in shaping popular understandings and the social memory of intelligence In this first introduction to these official and unofficial histories a range of leading contributors narrate and interpret the development of intelligence studies as a discipline Each chapter showcases new archival material looking at a particular book or series of books and considering issues of production censorship representation and reception

White Malice Susan Williams, 2021-08-10 Filled with fascinating information original research and bold ideas NPR a revelatory account of how African Independence was systematically undermined by the US In 1958 in Accra Ghana the Hands Off Africa conference brought together the leading figures of African independence in a public show of political strength and purpose The charismatic Kwame Nkrumah who had just won Ghana's independence led a determined appeal for Pan Africanism Young idealistic leaders across the continent as well as African Americans seeking civil rights at home heeded his call Yet a moment that signified a new era of African freedom simultaneously marked a new era of foreign intervention and control In White Malice Susan Williams unearths the CIA's covert operations from Ghana to the Congo to the UN which frustrated the attempts of Africa's new generation of nationalist leaders to establish democratic

governance These revelations dramatically upend the conventional wisdom that African nations failed to establish effective democratic states on their own accord As the old European powers moved out the US moved in Drawing on original research and recently declassified documents Williams introduces readers to idealistic African leaders and to the secret agents ambassadors and even presidents who deliberately worked against them forever altering the future of a continent

Imposing, Maintaining, and Tearing Open the Iron Curtain Mark Kramer, Vit Smetana, 2013-11-22 The Cold War began in Europe in the mid 1940s and ended there in 1989 Notions of a global Cold War are useful in describing the wide impact and scope of the East West divide after World War II but first and foremost the Cold War was about the standoff in Europe The Soviet Union established a sphere of influence in Eastern Europe in the mid 1940s that later became institutionalized in the Warsaw Pact an organization that was offset by the North Atlantic Treaty Organization NATO led by the United States The fundamental division of Europe persisted for forty years coming to an end only when Soviet hegemony in Eastern Europe dissolved Imposing Maintaining and Tearing Open the Iron Curtain The Cold War and East Central Europe 1945 1989 edited by Mark Kramer and V t Smetana consists of cutting edge essays by distinguished experts who discuss the Cold War in Europe from beginning to end with a particular focus on the countries that were behind the iron curtain The contributors take account of structural conditions that helped generate the Cold War schism in Europe but they also ascribe agency to local actors as well as to the superpowers The chapters dealing with the end of the Cold War in Europe explain not only why it ended but also why the events leading to that outcome occurred almost entirely peacefully *The Seventh Continent* Deborah Shapley, 2013-11-26 First Published in 2011 Part of the resources for the future library collection on Global Environment and Development this is the final Volume of seven This book presents a broad ranging study of Antarctica s history politics and development prospects with a command of issues in geography science policy technology and international law which is addressed with authority and flair At this time nations of the world are struggling to fashion a legal framework to govern Antarctic resources which some regard as the common heritage of mankind This debate described vividly here represents an ongoing application of the common property resource concept which has played a prominent role in RFF s research and analytical contributions during the past quarter century Furthermore the continent s energy and minerals endowment if exploitable at all and in the author s judgment the prospects for this are dim constitute at best resources for the future
