The Penal Landscape Anita Dockley, Ian Loader, 2013-07-18 The Howard League for Penal Reform is committed to developing an effective penal system which ensures there are fewer victims of crime has a diminished role for prison and creates a safer community for all In this collection of ten papers the charity has brought together some of the most prominent academic experts in the field to map out what is happening in a specific area of criminal justice policy ranging from prison privatisation to policing and the role of community sentences The Howard League guide has two main aims first it seeks to paint a picture of the current state of the penal system using its structures processes and the specific groups affected by the system as the lens for analysis However each author also seeks to identify the challenges and gaps in understanding that should be considered to predicate a move towards a reduced role for the penal system and prison in particular while maintaining public confidence and safer communities In doing so we hope to inspire researchers and students alike to develop new research proposals that challenge the status quo and seek to create the Howard League's vision for the criminal justice system with less crime safer communities fewer people in prison

The Euro Trap Hans-Werner Sinn, 2014-07-31 This book offers a critical assessment of the history of the euro its crisis and the rescue measures taken by the European Central Bank and the community of states The euro induced huge capital flows from the northern to the southern countries of the Eurozone that triggered an inflationary credit bubble in the latter deprived them of their competitiveness and made them vulnerable to the financial crisis that spilled over from the US in 2007 and 2008 As private capital shied away from the southern countries the ECB helped out by providing credit from the local money printing presses The ECB became heavily exposed to investment risks in the process and subsequently had to be bailed out by intergovernmental rescue operations that provided replacement credit for the ECB credit which itself had replaced the dwindling private credit The interventions stretched the legal

structures stipulated by the Maastricht Treaty which in the absence of a European federal state had granted the ECB a very limited mandate These interventions created a path dependency that effectively made parliaments vicarious agents of the ECB's Governing Council This book describes what the author considers to be a dangerous political process that undermines both the market economy and democracy without solving southern Europe's competitiveness problem It argues that the Eurozone has to rethink its rules of conduct by limiting the role of the ECB exiting the regime of soft budget constraints and writing off public and bank debt to help the crisis countries breathe again At the same time the Eurosystem should become more flexible by offering its members the option of exiting and re-entering the euro something between the dollar and the Bretton Woods system until it eventually turns into a federation with a strong political power centre and a uniform currency like the dollar

The British Labour Party in Opposition and Power 1979-2019 Patrick Diamond, 2021-01-18 This book provides a novel account of the Labour Party's years in opposition and power since 1979 examining how New Labour fought to reinvent post-war social democracy reshaping its core political ideas It charts Labour's sporadic recovery from political disaster in the 1980s successfully making the arduous journey from opposition to power with the rise and ultimately fall of the governments of Tony Blair and Gordon Brown Forty years on from the 1979 debacle Labour has found itself on the edge of oblivion once again Defeated in 2010 it entered a further cycle of degeneration and decline Like social democratic parties across Europe Labour failed to identify a fresh ideological rationale in the aftermath of the great financial crisis Drawing on a wealth of sources including interviews and unpublished papers the book focuses on decisive points of transformational change in the party's development raising a perennial concern of present-day debate namely whether Labour is a party capable of transforming the ideological weather shaping a new paradigm in British politics or whether it is a party that should be content to govern within parameters established by its Conservative opponents This text will be of interest to the general reader as well as scholars and students of British politics British political party history and the history of the British Labour Party since 1918
