

## JANUARY ... DOES IT BRING YOU JOY?

- 1 January is the time for renewal on many fronts. It's the time of the year to re-evaluate everything. If something or someone doesn't bring you joy, it's pretty pointless carrying on with it. If we want the best, we must do our best. We must keep our family space safe and secure so that we are thriving as a people and as a nation. 5
- 2 In order to live their best lives, people are spreading themselves thinner and thinner with multiple streams of income. In the process we earn more but live less, we lose our focus of what is important.
- 3 With social media, keeping up with other Instagrammers are having a devastating effect on self-perception. Everything appears to be real perfect, but the fabric of our society is frazzled. Use January to take stock and start navigating new ways of doing things. Instead of multiple streams of sole sessions, travel more, and connect with people and places that bring you joy. 10

Davidson, 2017-09-05 A leading educational thinker argues that the American university is stuck in the past and shows how we can revolutionize it for our era of constant change Our current system of higher education dates to the period from 1865 to 1925 It was in those decades that the nation s new universities created grades and departments

majors and minors all in an attempt to prepare young people for a world transformed by the telegraph and the Model T As Cathy N Davidson argues in *The New Education* this approach to education is wholly unsuited to the era of the gig economy From the Ivy League to community colleges she introduces us to innovators who are remaking college for our own time by emphasizing student centered learning that values creativity in the face of change above all *The New Education* ultimately shows how we can teach students not only to survive but to thrive amid the challenges to come

**The “New” Epidemic-Grading Practices** Andre’ Mathews, 2016-03-16 This book is a comprehensive view on the grading practices and policies in American public schools The content of the book identifies the lack of alignment amongst the Federal State and Local Districts and the need to adopt a unified policy Educational institutions are creating their own versions of grading systems that lack integrity flawed in design hinder many students from graduating and or achieving opportunities to become a more productive citizen after high school completion Section I The structure of the book begins with a systemic view of development by identifying the philosophical and theoretical aspects involved in the grading system Section II The authors work then transitions to the structure of the grading system addressing the mathematical aspects of calculating a students grade point average to the teachers validity of grades Section III This section identifies the parents role and need to understand the grade itself and its effect on the students overall outcome and class ranking Section IV The book ends with a strong analysis of the system parental rights examples of educational disasters and schools quest for new grading systems All in all this book takes a journey throughout the entire educational system identifying a need for change on all levels as it relates to the grading system The overall message emphasizes the parents need to be cognizant of the importance of being involved and properly motivating mentoring monitoring modeling and managing their childs educational careers All stakeholders should walk away with a sense of ownership to the problem and an understanding that the time for change is now The ethnic margin is widening and too many students are graduating unmarketable A grade is more than a number its a quality of life

**Reforming Lessons: Why English Schools Have Improved Since 2010 and How This Was Achieved** Nick Gibb, Robert Peal, 2025-08-18 *Reforming Lessons* provides a first hand account of the ambitious programme of reform that has led to a transformation in English schools since 2010 and seen pupils rise through the ranks of international comparison tests such as PIRLS and PISA Co authored by former Schools Minister Nick Gibb and Headteacher Robert Peal the book explores the key principles behind the reforms and reveals the impact they had on school leadership accountability teaching methods curriculum design and pupil behaviour Addressing the long legacy of progressive approaches to teaching in English schools and the development of evidence led alternatives the book shows that approaches to education such as warm strict teacher led instruction and knowledge rich curriculum have been simultaneously both controversial and hugely successful Chapters cover Reforms to the primary curriculum phonics and mathematical mastery The return of rigour in the secondary curriculum School structures academies and free schools Academic standards Grassroot reforms Changes to

teacher training and the introduction of the Early Career Framework Providing a fascinating insight into the major reforms that have shaped England's school system and the drivers behind them this is essential reading for anyone working in the education sector policy makers and those interested in education reform

**Policy-Making in the GCC** Neil Quilliam, Mark C. Thompson, 2017-09-11 The GCC is a major player in the post 2011 reordering of the Middle East Despite the rise in prominence of individual Gulf states especially Kuwait Qatar Saudi Arabia and the United Arab Emirates and the growth of the GCC as a collective entity surprisingly little attention has been paid to the actual mechanics of policy making in the region This book analyses the vital role that institutions are coming to play in shaping policy in the Gulf Arab states The research coincides with two key developments that have given institutions new importance in the policy process the emergence of a new generation of leaders in the Gulf and the era of low oil prices Both developments along with dramatic demographic change have compelled state and citizens to re evaluate the nature of the social contract that binds them together Contributors assess the changing relationship between state and citizen and evaluate the role that formal and informal institutions play in mediating such change and informing policy The book shows how academic social and economic institutions are responding to the increasingly complex process of decision making where citizens demand better services and further empowerment and states are obliged to seek wider counsel although wanting to retain ultimate authority With contributions from both academics and practitioners this book will be highly relevant for researchers and policymakers alike
