Mita got a table clock on her birthday. Mita's uncle gave it to her because she cannot wake up in time on school days. Now Mita has a clock but she doesn't know how to tell the time. Next day she takes her clock to the class. She says to her teacher Saira Banu, "Teacher, last month you taught us the names of months and number of days. I have a clock and I can't tell the time. Could you please teach us how to tell the time?" Saira Banu becomes very happy. She says, "Of course! I will be happy to teach you to tell the time. First we will know only about the hours. Look at the clock, it has two hands. The short one is the hour hand and the long one is the minute hand.
