Merrill's book *Getting Organized in the Google Era* shows that today's world is fast-paced and information-saturated. In other words, you need a system which takes full advantage of available technology rather than one developed for bygone eras when paper to-do lists were all that were required. Forget about looking for a one-size-fits-all organisational system; it doesn't exist. Instead, you have to develop your own system which will meet all the unique twists and demands you face in your life and career.
