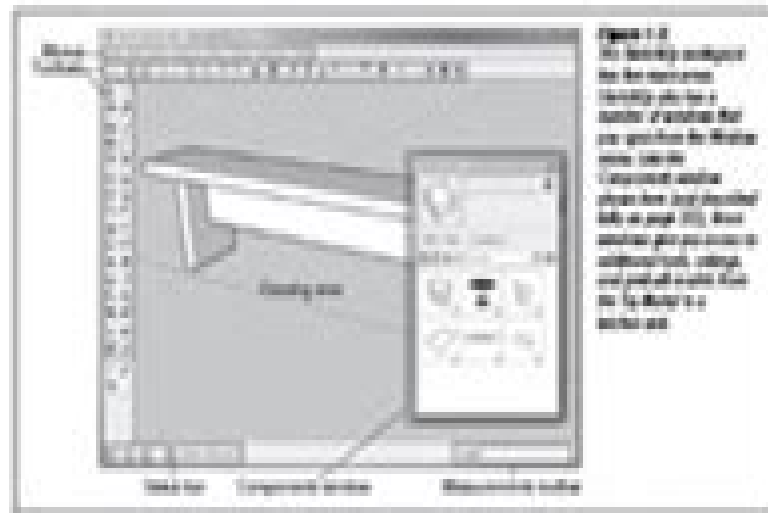

Figure 1-1: The SketchUp window. The 3D view shows the model you're working on. The Component window shows the objects in the model. The Outlining window shows the hierarchy of the model's components.

In addition to the three main windows, SketchUp also includes several other windows, such as the Component window that's open in Figure 1-1. You can open and close these as needed by using the Window menu. With the tools in these windows, you'll apply color and shading to your models, select and delete components, add shadows and lighting effects, and export your project.

Don't Be Afraid to Play

When you get started, don't be afraid to play with the tools. The SketchUp interface is designed to be intuitive, and the tools are designed to be easy to use. Don't be afraid to experiment with the tools. The SketchUp interface is designed to be intuitive, and the tools are designed to be easy to use. Don't be afraid to experiment with the tools.

SketchUp's menu bar is styled with the most common, such as File, Edit, Window, and Help. SketchUp's View menu is a little different from the ones in most programs (Figure 1-2). The View menu has items in the SketchUp window that you can show or hide, including things like the drawing guides, wire frame, measurement tools, and view different models. If you're looking for tools that change over time of the SketchUp window, such as a View or Print tool, look under the Window menu.
