

Chapter 9 – Food and Agriculture AP Human Geography – Reading Guide **ANSWERS**

Key Issue 1 – Where Did Agriculture Originate?
Rubenstein 12e, Pgs. 308-311

1. Define agriculture: deliberate modification of earth's surface through cultivation of plants and rearing of animals to obtain sustenance or economic gain
2. Define cultivate: "to care for" usually a crop or a farm animal
3. Define the agricultural revolution: a time when humans first domesticated plants and animals and no longer relied entirely on hunting and gathering
4. When did the agricultural revolution occur? How can scientists be certain about that date?
Around 6000 BC because that's when the world's population began to grow at a more rapid rate - indicating that humans had larger and more stable sources of food and more people survived
5. Explain the factors that contributed to the agricultural revolution:
 - Environmental factors - climate change caused a redistribution of humans, animals and plants as the earth moved out of the ice age
 - Cultural factors - preference for living in a fixed location rather than nomads would have encouraged people to learn how to farm and begin permanent settlements
6. Label the crops and animals that were first domesticated in each of the regions of the map:

Concerns M.S. Kenzer, 2013-11-11 The completion of this collection took many months and for a variety of reason required the assistance and or indulgence of a number of individuals First and foremost I would like to thank Tim Hudson for his useful input and support at the outset of the project Likewise I would like to thank Jesse O McKee for providing a hospitable environment during my affiliation with the University of Southern Mississippi At Louisiana State University I am grateful to Sam Hilliard and Carville Earle for their invaluable understanding The book became part of the GeoJournal Library as a result

of Wolf Tietze's confidence in the topic and because of Henri G van Dorssen's and Kluwer Academic Publishers' good nab lre despite numerous problems Curtis C Roseman and the remainder of the Geography Department at the University of Southern California where I completed many last minute details for the volume are to be thanked for the cordial and warm environment I received while a visitor in Los Angeles Finally no multi authored collection reaches completion without the help of many patient contributors This particular book suffered many set backs along the way so I am particularly grateful to the authors herein They demonstrated their compassion and exceptional professionalism throughout by never second guessing my decisions and by allowing me to remedy the set backs in my own way They were a pleasure to work with and they should take pride in their achievements
