Manore,Dale Miner,2011-11-01 The Culture of Hunting in Canada is about a pivotal but little studied aspect of Canadian history culture and society It covers elements of the history of hunting from the pre colonial period until the

present in all parts of Canada featuring essays by practitioners and scholars of hunting and by pro and anti hunting lobbyists The result crosses the boundaries between scholarship and personal reflection and between academia and advocacy The essays collected here address important historical and contemporary issues regarding the culture and practice of hunting Topics include hunting identities conservation and its relationship to hunting tensions between hunters and non hunters and between Aboriginal and non Aboriginal hunting groups hunting ethics debates over hunting practices and regulations animal rights and gun control The discussion involves consideration of the social political and economic context as well as class and racial tensions between sport hunters and subsistence hunters The Culture of Hunting in Canada makes an unprecedented contribution to the study of hunting in Canada and its role in our culture It will appeal to sociologists anthropologists and historians of hunting culture wildlife biologists natural resource managers and environmentalists and not least hunters and anyone interested in the culture of hunting

The Anthropology of Hunter-Gatherers Vicki Cummings, 2020-07-12 This book provides a basic introduction to key debates in the study of hunter gatherers specifically from an anthropological perspective but designed for an archaeological audience Hunter gatherers have been the focus of intense anthropological research and discussion over the last hundred years and as such there is an enormous literature on communities all over the world Yet among the diverse range of peoples studied there are a number of recurrent themes including not only the way in which people make a living hunting gathering and fishing but also striking similarities in other areas of life such as belief systems and social organisation These themes are described and then explored through archaeological case studies The overarching theme throughout the volume is the use of ethnographic analogy and how archaeologists should be critical in its use

From Hunters to Farmers John Desmond Clark, Steven A. Brandt, 1984-01-01 *After the Hunt* Alfred Frankenstein, 2023-12-22 In 1887 during the Minneapolis State Fair the renowned trompe l oeil painting The Old Violin by William Michael Harnett was on display captivating audiences with its lifelike depiction of a violin hanging on a pair of wooden shutters So convincing was the artwork that it prompted debates among viewers about whether it was a painting or a real object and in some cities a guard was employed to prevent people from touching the artwork to settle the matter However not everyone was enamored with Harnett s style Reverend Doctor F T Gates in a sermon following the fair criticized The Old Violin calling it a mere piece of legerdemain with no higher artistic purpose beyond deceiving the viewer s eye This reaction reflects a broader cultural divide of the time where Harnett s meticulous realism was admired by some but dismissed by others for lacking moral or spiritual depth Despite these criticisms Harnett s reputation has only grown cemented further by art historians and collectors who have sought out his works over the years His ability to create lifelike illusions of everyday objects resonated with audiences and his systematic approach to composition can now be studied through the growing catalog of his works Since the first publication of this book in 1953 over forty additional paintings as well as several forgeries have come to light underscoring the lasting impact of Harnett s art His legacy along with the recognition of fellow artists John Frederick Peto and John Haberle has led to their inclusion in prestigious American
