Operation

- Ensure you are wearing appropriate PPE when operating this fogger.
- If the use of an extension lead is required, ensure it is rated at 230V 13A and is grounded. Only use an extension lead which is properly rated for voltage, current, length, and which is free from nicks, cracks, and other signs of prior abuse. Replace damaged or worn electric leads immediately.
- Do not use a fogger that is broken or damaged in any way. Do not alter the fogger by adding or removing parts.
- Do not restrict the motor blower air intake area.

Formulation

- Always read the product label when preparing your solution and ensure the formulation is suitable for the intended application.
- This fogger can be used with water-based, oil-based, and solvent-based formulations. Ensure that formulation is applied only in strict compliance with the formulation label and store formulation in its original labelled container.
- Remove the filling cap to pour formulation into the tank. Add only premixed/diluted formulations to the tank.

Operation

- With the fogger power off, remove the filling cap and pour your premixed formulation into the tank, up to a maximum 3.8 litres, and replace the cap.
- Ensuring the fogger is pointing in a safe direction, turn on via the power switch and select the appropriate flow valve setting.
- The exact method of operation is dependent on a number of factors, including the application, flow rate, formulation viscosity, but best results are normally achieved maintaining a distance of 1-4 metres from the items you want to fog. Keep moving the fogger with slow, steady movements for an even coverage, starting from the highest point. If there is liquid run-off then the application is too heavy, either move further away, adjust the flow rate or speed up.
- Do not allow the fogger to operate unattended. Do not stand in water or hold over water while operating fogger and do not allow the power lead or extension lead to be submerged in water. Do not use outdoors when it's raining.
- Do not block the air intake area.
