

ICOM

Count on us!

Marine SSB.

ICOM proudly introduces the IC-M700, 150 watt marine solid state SSB transceiver, approved to MPT 1237. The IC-M700 is above and beyond the competition with ICOM's APC (automatic protection circuit) to protect final transistors; the full featured M700 is built to operate with confidence when others cannot.

A leader in the marine transceiver industry for years ICOM has a proven record of solid state transceiver design and now offers this all-channel, all mode marine SSB for about half the price of others on the market.

Features include 48 memory channels that can be operated simplex or semi-duplex covering all ships to shore, high seas telephone and ship-to-ship SSB channels. Independent transmit and receive programming in 100Hz steps provides flexibility.

A quartz-locked synthesized tuning system provides superb stability without ever having to purchase expensive crystals or PROMS. Memories are fully programmable from the front panel keypad.

All radio-telephone channels are accessible with the IC-M700. High seas transmission modes J3E (SSB suppressed carrier at least -40dB) and R3E (SSB reduced carrier at least -16dB) are provided for as well as H3E.

A heavy duty speaker provides 5 watts of superior receive audio. The IC-M700 features full transmit and receive coverage of all marine bands up to 23.999MHz, as well as general coverage reception between 1.6 and 23.999MHz.

Other features include a wide range clutter audio activated squelch (radio remains silent unless a human voice is detected), noise blanker to eliminate interference from shipboard electrical sources, modern

digital readout, noise-canceling microphone, telephone style headset for privacy (optionally plus a heavy duty mounting bracket).

AT-120 Automatic antenna tuner. ICOM's versatile HF/MF automatic microprocessor-controlled antenna tuner easily matches the IC-M700 to your antenna system. Tune-up time is normally about 3 or 4 seconds by simply pressing the tune button on the M700. The AT-120 has a weatherproof casing and can therefore be installed anywhere on your vessel.

IC-M700-24/12, 24 volt regulator. This unit will enable you to use the IC-M700 transceiver on a 24 volt system. The regulator is rated at 25 amps (20 amps continuous).
