Technical Writing, Presentational Skills, and Online Communication: Professional Tools and Insights Greenlaw, Raymond, 2012-03-31 This book is a collection of work to assist any professional who needs to deal with ethical issues, write up a technical project, give or develop a presentation or write material for an online audience. Provided by publisher.

How to Write Your Undergraduate Dissertation Bryan Greetham, 2019-02-27 This practical guide takes undergraduate students step by step through the process of completing a dissertation from the initial stages of generating original ideas and planning the project through to writing their first draft and critically reviewing their own work. It shows students how to choose the most appropriate methods for collecting and analysing their data and how to then integrate this research into their dissertation. Students will learn how to develop consistent and persuasive arguments and write up their research in a clear and concise style. This book is an essential resource for undergraduates of all disciplines who are required to write a dissertation as part of their degree. New to this Edition Includes expanded material on research ethics. Contains two new chapters on presenting research posters and delivering oral presentations.

Guided Inquiry Design® in Action Leslie K. Maniotes, 2016-12-05 Edited by the cocreator of the Guided Inquiry Design (GID) framework as well as an educator, speaker and international consultant on the topic, this book explains the nuances of GID in the high school context. It also addresses background research and explains guided inquiry and the information search process. Today's students need to be able to think creatively to solve problems. They need to be in learning environments that incorporate collaboration, discussion and genuine reflection to acquire these kinds of real-world skills. Guided Inquiry Design in Action High School gives teachers and librarians lesson plans created within the proven GID framework specifically designed for high school students and provides the supporting information and guidance to use these lesson plans successfully. You'll find the lesson plans and complete units of Guided Inquiry Design clear and easy to implement and integrate into your existing curriculum in all areas from science to humanities to social studies. These teaching materials are accompanied by explanations of critical subjects such as the GID framework using Guided Inquiry as the basis for personalized learning using inquiry tools for assessment of learning in high school and applying teaching strategies that increase student investment and foster critical thinking and deeper learning.
