La Part Manquante

Christian Culas, François Robinne

La Part Manquante:

, **Social Dynamics in the Highlands of Southeast Asia** François Robinne, Mandy Sadan, 2007 Drawing on long term fieldwork and research in communities from Assam through to Laos this book offers a unique level of reappraisal of the work of Edmund Leach and is a significant contribution to the development of a new regional anthropology of Southeast Asia

Processus de réhabilitation des auteurs de violences sexuelles André Ciavaldini, 2022-05-03 La prise en charge spécifique des auteurs de violences sexuelles s'inscrit dans le cadre de la loi du 17 juin 1998 relative à la prévention et à la répression des infractions sexuelles et à la protection des mineurs et s'appuie sur les CRIAVS. Après un premier ouvrage sur la psychopathologie des agresseurs sexuels et en tenant compte des recherches et évaluations menées depuis, l'auteur développe la notion de réhabilitation ou d'assistance, c'est-à-dire ce qui aide la personne à quitter la voie de la délinquance selon un modèle psychodynamique. Il s'agit d'appréhender la complexité qui conduit l'acte délinquant comme tentative de survie psychique et d'utiliser cette compréhension pour forger des dispositifs favorables à la réhabilitation subjective de son auteur, qui ne peut être qu'un des volets efficaces de la réhabilitation globale. Interviendront de multiples partenaires judiciaires pénitentiaires thérapeutiques. Après les rappels théoriques et cliniques nécessaires, l'ouvrage développe l'approche thérapeutique psychodynamique et l'aménagement des cadres institutionnels d'accueil en articulation avec le judiciaire, celui-ci faisant partie intégrante du soin. La troisième partie centre sur le concept de réhabilitation, explique l'intégration des dispositifs thérapeutiques individuels dans l'environnement social et présente le travail en réseau mis en œuvre dans plusieurs départements pour les auteurs de violences sexuelles sous injonction pénale de soins. La place spécifique du thérapeute est ensuite envisagée au sein de ce réseau pluridisciplinaire qui associe le médical, le social et le juridique. Cet ouvrage s'adresse aux psychiatres, aux psychologues, mais aussi aux magistrats et aux accompagnants du champ social.

This "Self" Which Is Not One Natalie Edwards, Christopher Hogarth, 2010-03-08 The Self Which is Not One Women's Life Writing in French assembles articles on women's life writing from diverse areas of the Francophone world. It is comprised of nine chapters that discuss female writers from North Africa, Sub-Saharan Africa, the Caribbean and Europe, in addition to French writers. The idea of the self is currently attracting widespread interest in academia, most notably in the arts and humanities. The development of postmodernism supposes a fragmented subject formed from the network of available discourses rather than a stable and coherent self. Jacques Derrida, for example, wrote that there is no longer any such things as a full subject, and Julia Kristeva now insists that the individual is a subject in process. The growing importance of psychoanalytic theory, particular in French studies, has also impacted upon this development. The basic tenet of psychoanalytic theory is that the individual is formed of a duality, the conscious and unconscious parts of the self, which prevent the individual from ever fully knowing her/himself and which thus insists upon a plural, incomplete self. Developments in the field of postcolonial studies have also made us aware of different ways of approaching the self in different parts of the world and eroded the idea of a stable, conscious and complete

self As scholars examine these new ways of approaching the self autobiography has been the subject of renewed interest Several academic books have appeared in recent years that study the ways in which autobiographers represent the self as incomplete evolving and elusive In particular a number of books have appeared on the subject of women s autobiography and female subjectivity such as works by Sidonie Smith Julia Watson and Nancy Miller and several volumes interrogate postcolonial women s autobiography such as texts by Fran oise Lionnet Gayatri Spivak Carole Boyce Davies and Chandra Mohanty Our volume unites these strands of criticism by examining ways that female autobiographies write the self as a fragmented plural construct across the Francophone world This will be the first book length study of this important development This volume will be of interest primarily to students and scholars working in the areas of life writing French and Francophone studies postcolonial studies and gender studies The volume contributes to multiple areas that are currently garnering substantial interest in academe postcolonial studies Francophone studies gender studies and women s writing By comparing works from across the Francophone world our volume takes a global approach to the genre of autobiography and its inflections by women writers The Self That is Not One in Women s Autobiography in French therefore represents a timely intervention in several interlinking academic fields and will thus garner substantial interest **Translation Quality**

Assessment Malcolm Williams,2004 Outlining an original discourse based model for translation quality assessment that goes beyond conventional microtextual error analysis this ground breaking new work by Malcolm Williams explores the potential of transferring reasoning and argument as the prime criterion of translation quality Assessment through error analysis is inevitably based on an error count an unsatisfactory means of establishing and justifying differences in quality that forces the evaluator to focus on subsentence elements rather than on the translator s success in conveying the key messages of the source text Williams counters that a judgement of translation quality should be based primarily on the degree to which the translator has adequately rendered the reasoning or argument structure An assessment of six aspects of argument structure is proposed argument macrostructure propositional functions conjunctives types of arguments figures of speech and narrative strategy Williams illustrates the approach using **Historical Dictionary of the Peoples of the Southeast**

In *Masters of Psalmody* bimo Aur lie N vot analyses the religious political and theoretical issues of a scriptural shamanism observed in southwestern China among the Yi Sani Her focus is on blood sacrifices and chants based on a secret and labile writing handled only by ritualists called bimo Through ethnographic data the author presents the still little known bimo metaphysics and unravels the complexity of the local text based ritual system in which the continuity of each bimo lineage relies on the transmission of manuscripts whose writing relates to lineage blood While illuminating the usages of this shamanistic tradition that is characterized by scriptural variability between patrilineages Aur lie N vot highlights the radical changes it is undergoing by becoming a Chinese state tradition
