La Mystique De La Croissance Comment Sen Liberer:

La Mystique de la croissance Dominique Méda, 2014-09-03T00:00:00+02:00 Alors que les pays occidentaux font face une crise économique et sociale d'une extrême gravité responsables politiques et experts attendent le salut du seul retour de la croissance Pourtant si celle-ci revenait elle contribuerait à seulement aggraver la menace écologique laquelle le monde est confronté Comment sortir de cette contradiction En comprenant pourquoi et comment nous sommes devenus des sociétés fondées sur la croissance En tirant toutes les conséquences du caractère anachronique et pervers des indicateurs tels le PIB qui sont devenus nos fétiches En mettant au cœur de l'action publique ce qui compte pour inscrire nos sociétés dans la durée La reconversion écologique est le seul moyen de maintenir des conditions de vie authentiquement humaines sur Terre mais elle suppose de rompre avec une partie de nos croyances liées à l'avènement de la modernité le caractère intrinsèquement bon de la maximisation de la production le progrès confondu avec l'augmentation des quantités la passion de l'enrichissement personnel Elle exige aussi de mettre un terme à la prétention de l'économie d'être seule le monde que nous voulons **Création Studio Flammarion Flammarion 2013 pour l'édition originale Flammarion 2014 pour la présente édition en coll Champs** **Se libérer**

de la domination des chiffres Valérie Charolles, 2022-03-02 Nous vivons dans un monde de chiffres il en va du PIB ou encore des scrutins en démocratie et même de l'appréhension de nos motions Les chiffres sont devenus notre grille privilégiée de lecture du monde mais aussi de prise de décision La pandémie de Covid-19 a illustré avec une puissance inédite Face à ce langage dominant nous sommes pour la plupart en situation d'illettrés Les occasions de malentendus et de raisonnements trompeurs s'en trouvent multipliés Ce livre veut y remédier Valérie Charolles nous plonge au cœur de la fabrique des indicateurs qui jalonnent notre quotidien et montre comment nous sommes passés du problème des mots et des choses celui des faits et des chiffres L'illusion tenace selon laquelle on peut rendre compte exactement de tout sous forme de chiffres ne résiste pas à l'examen Tous reposent sur des conventions il faut donc finir ce qu'on a commencé choisir une méthode et la manière de rassembler les informations Cet examen critique de nos instruments de mesure contient des clés pour s'extraire d'une emprise injustifiée et combiner calcul et liberté le problème n'est pas de mettre de côté les chiffres mais de se libérer de leur domination Valérie Charolles est philosophe et a travaillé dans le monde des chiffres pendant vingt-cinq ans Elle a notamment enseigné Sciences Po et à l'EHESS Tous ses livres sont parus chez Fayard Le premier Le libéralisme contre le capitalisme 2006 est disponible en Folio Essais

Process Engineering Renewal 3 Éric Schaer, Jean-Claude André, 2020-07-17 Process engineering emerged at the beginning of the 20th Century and has become an essential scientific discipline for the matter and energy processing industries Its success is incontrovertible with the exponential increase in techniques and innovations Rapid advances in new technologies such as artificial intelligence as well as current societal needs sustainable development climate change renewable energy the environment are developments that must be taken into account in industrial renewal Process Engineering Renewal 3 presents a prospective analysis that demonstrates the significant disruptions linked to

sustainable development global warming etc These constraints may trigger changes in the social regulation system which in turn applies pressure on actors of process engineering to evolve and adapt to these developments

Du gaspillage à la sobriété : Avoir moins et vivre mieux ? Serge Tisseron, Dominique Méda, Valérie Guillard, Dominique Meda, 2019-10-31 Les consommateurs pensent ils gaspillent lorsqu'ils achètent une paire de chaussures quasiment identique une paire possédée Lorsqu'ils accumulent des téléphones portables inutilisés dans un tiroir Lorsqu'ils donnent des vêtements une association pour en acheter des modèles plus neufs ou plus à la mode Dans l'affirmative s'agit-il du gaspillage des objets de l'argent de ressources Ce livre apporte des éléments de réponse Comment passer du gaspillage des objets à la sobriété matérielle Alors que les médias ne cessent de parler du gaspillage alimentaire de l'eau ou de l'énergie celui des objets matériels sujet de ce livre est largement moins médiatisé Ce qui l'est ce sont les pratiques de circulation des objets fondées sur le don la vente l'échange le troc qui s'inscrivent dans l'économie circulaire et ou collaborative Qu'est-ce que le gaspillage des objets pour les personnes Pensent-elles gaspiller lorsqu'elles achètent une paire de chaussures quasiment identique une paire possédée Lorsqu'elles accumulent des téléphones portables inutilisés dans un tiroir Lorsqu'elles donnent des vêtements une association pour faire de la place dans les placards et acheter des modèles plus neufs ou plus à la mode Dans l'affirmative s'agit-il du gaspillage des objets d'argent de travail de ressources naturelles Ce livre apporte des éléments de réponse Il questionne les relations des individus aux objets matériels via leur perte d'utilité autrement dit via leur gaspillage en trois temps gaspiller remédier au gaspillage et devenir sobre Le premier temps fournit des éléments pour comprendre le concept du gaspillage dans une société d'hyperconsommation Le deuxième donne la parole des professionnels du terrain Emmaüs Halte à l'Obsolescence Programmée Zéro Waste France Agence du Don en Nature Réseau Francilien des Acteurs du Reemploi exerçant un regard pratique et parfois critique sur le gaspillage des objets Enfin le dernier temps discute la notion de sobriété matérielle et l'approuve dans des contextes quotidiens que ce soit via la réduction de la consommation par des personnes qui s'en lancent le défi ou via le désencombrement par des home organizers Deux regards englobants psychologique et sociologique introduisent et concluent ces réflexions

Redefining Prosperity Isabelle Cassiers, 2014-08-27 Society today faces a difficult contradiction we know exactly how the physical limits of our planet are being reached and exactly why we cannot go on as we have before and yet collectively we seem unable to reach crucial

decisions for our future in a timely way This book argues that our definition of prosperity which we have long assimilated with the idea of material wealth may be preventing us from imagining a future that meets essential human aspirations without straining our planet to the breaking point In other words redefining prosperity is a necessary and urgent task This book is the fruit of a long debate among 15 scholars from diverse fields who worked together to bring the depth and nuance of their respective fields to questions that affect us all The result is a rich transdisciplinary work that illuminates the philosophical and historical origins of our current definition of prosperity identifies the complex processes that gave rise to the problems we face today elucidates the ways in which our contemporary environmental social nutritional economic political and cultural crises are interconnected and explores why a half century of economic growth has neither increased life satisfaction in the West nor vanquished world poverty Approaching these broad ranging questions from the specific standpoints of their disciplines each of the authors offers thoughts for the future considering possible escape routes and proposing changes to the way we live behave and organise society and public action changes that actually respond in an equitable way to our deepest aspirations Ultimately in laying the groundwork for a public debate on this subject this book poses a question to its readers what is your definition of prosperity and what can be done to promote it **Ralentir ou**

Mouchtouris,2022-05-12T00:00:00+02:00 Traiter la métamorphose du monde contemporain peut nous éclairer sur toutes les transformations sociales qui sont produites autour de nous Dans cet ouvrage tous les domaines sont touchés en particulier la globalisation qui a provoqué la métamorphose de l'universel Après avoir bousculé le monde actuel et les relations humaines la mondialisation exige des individus sociaux une nouvelle adaptation Dans la période que nous vivons nous nous retrouvons face aux nostalgiques qui ont du mal à adapter et aux autres qui d'une manière pragmatique affrontent la métamorphose du présent **Deconstructing Flexicurity and Developing Alternative Approaches** Maarten Keune,Amparo

Serrano,2014-03-26 In recent years the concept of flexicurity has come to occupy a central place in political and academic

debates regarding employment and social policy It fosters a view in which the need for continuously increasing flexibility is the basic assumption and the understanding of security increasingly moves from social protection to self insurance or individual adaptability Moreover it rejects the traditional contradictions between flexibility and security blending the two into a single notion and thus depoliticizing the relationships between capital and labour This volume provides a critical discussion of the flexicurity concept the theories upon which it is built and the ideas that it transmits about work unemployment and social justice It shows that flexicurity fosters the further individualization of social protection an increase in precariousness and the further weakening of labour in relation to capital The authors present a series of alternative theoretical normative and policy approaches that provide due attention to the collective and political dimension of vulnerability and allow for the development of new societal projects based on alternative values and assumptions

La citoyenneté confisquée Michel DIAS, 2023-04-13

L'affirmation ici d'un développement et argumentation sous l'angle strictement philosophique ne se contente pas simplement de la crise du système représentatif tant inévitable parce que la représentation politique trahit l'essence même du politique La citoyenneté n'ayant de sens que par la participation directe et personnelle de chaque citoyen aux décisions collectives le politique ne saurait être autre chose que l'espace de la discussion entre les citoyens la recherche d'un accord sur toute question que la société pose l'état Dans tous les pays où elle a pris naissance dans le sillage des révolutions du 18^e siècle la démocratie représentative a fini d'apporter ce qu'elle pouvait produire de meilleur l'émergence d'une conscience citoyenne demandant aujourd'hui à se libérer des tutelles politiques afin que soit confiée aux citoyens la responsabilité du monde Le 21^e siècle sera celui de la citoyenneté libératrice ou il ne sera pas Il est simple donc mais non simpliste Elle ne peut être fondée et justifiée que par une pensée du politique appelée à investir la querelle des Anciens et des Modernes pour explorer les capacités citoyennes la lumière d'une théorie de l'existence et d'une métaphysique de l'homme C'est ce que tente l'auteur de cet ouvrage sur deux parties 1 Une partie critique dont l'objet est d'abord de reconnaître les raisons de l'insuffisance puis de la faillite du système représentatif Suit le travail de refondation du politique proprement dit qui convoque moins l'expérience grecque ancienne que les idées tirées de cette expérience par les poètes et intellectuels grecs puis synthétisées dans la pensée d'Aristote 2 Une partie prospective dont l'objet est d'envisager la manière d'une utopie philosophique les dimensions théoriques d'une reconquête nécessaire de la citoyenneté d'exercice Sous le néologisme politique préfigure la démocratie directe est alors élaboré le concept de régime des citoyens libérants Puis sont étudiés autant les raisons et modalités du confinement moderne des citoyens dans la société civile que les conditions d'une réhabilitation possible de la citoyenneté politique Voir la table des matières section par section en fin de volume

PROPOS DE L'AUTEUR Michel Dias est Professeur agrégé de philosophie Il a consacré toute sa carrière professionnelle à l'enseignement de cette discipline dans deux lycées ruraux Il a publié un commentaire explicatif de La crise de la culture de Hannah Arendt et a collaboré diverses revues spécialisées A travers ses articles mais aussi la faveur de sa participation étroite au lancement de l'Université Populaire de Guéret sous l'égide du Cercle

Condorcet de la Creuse il a commencé d'explorer dès 2005 les idées maitresses du présent ouvrage En partant des bases théoriques développées dans La citoyenneté confisquée il voudrait maintenant travailler transmettre aux nouvelles générations l'utopie philosophique du régime des citoyens comme une alternative au développement des démocraties représentatives

Post-growth Economics and Society Isabelle Cassiers, Kevin Maréchal, Dominique Méda, 2017-10-30 We stand on the threshold of a post growth world one in which the relentless pursuit of economic growth has ceased to constitute a credible societal project The symptoms that mark the end of an era are clear and incontrovertible a return to the regularities of the past is illusory The pursuit of economic growth no longer constitutes a credible societal project for ecological social and geopolitical reasons Edited by an impressive array of experts this book identifies several areas in which we must fundamentally rethink our societal organisation They ask what it means to abandon the objective of economic growth how we can encourage the emergence of other visions to guide society how global visions and local transition initiatives should be connected which modes of governance should be associated with the required social and technological innovations Alongside the necessary respect of ecological limits and equity in distribution the promotion of autonomy involving all in the building of socio-political norms could serve for guidance The topics addressed over the chapters range from the future of work to the de-commodification of economic relations the search for new indicators of progress to decentralized modes of governance and

from the circular economy to polycentric transitions Each contribution brings a unique perspective a piece of a larger puzzle to be assembled Post growth Economics and Society is an important volume to those who study ecological economics political economy and the environment and society It invites theorists as much as practitioners to re explore the roots of our societal goals and play an active role in the systemic shift to come **Religion, Modernity, Globalisation** François

Gauthier,2019-09-30 This book argues that the last four decades have seen profound and important changes in the nature and social location of religion and that those changes are best understood when cast against the associated rise of consumerism and neoliberalism These transformations are often misunderstood and underestimated namely because the study of religion remains dependent on the secularisation paradigm which can no longer provide a sufficiently fruitful framework for analysis The book challenges diagnoses of transience and fragmentation by proposing an alternative narrative and set of concepts for understanding the global religious landscape The present situation is framed as the result of a shift from a National Statist to a Global Market regime of religion Adopting a holistic perspective that breaks with the current specialisation tendencies it charts the emergence of the State and the Market as institutions and ideas related to social order as well as their changing rapports from classical modernity to today Breaking with a tradition of Western centeredness the book offers probing enquiries into Indonesia and a synthesis of global and Western trends This long awaited book offers a bold new vision for the social scientific study of religion and will be of great interest to all scholars of the Sociology and Anthropology of religion as well as Religious Studies in general The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license **Social Innovation in the Service of Social and Ecological Transformation** Olivier De Schutter, Tom

Dedeurwaerdere,2021-10-14 This book explores how the State can play a role as an enabler of citizens led social innovations to accelerate the shift to sustainable and socially just lifestyles To meet the twin challenges of environmental degradation and the rise of inequalities societal transformation is urgent Most theories of social change focus either on the role of the State on the magic of the market or on the power of technological innovation This book explores instead how local communities given the freedom to experiment can design solutions that can have a transformative impact Change cannot rely only on central ordering by government nor on corporations suddenly acting as responsible citizens Societal transformation at the speed and scope required also should be based on the reconstitution of social capital and on new forms of democracy emerging from collective action at the local level The State matters of course for the provision of both public services and of social protection and to discipline the market but it should also act as an enabler of citizen led experimentation and it should set up an institutional apparatus to ensure that collective learning spreads across jurisdictions Corporations themselves can ensure that society taps the full potential of citizens led social innovations they can put their know how their access to finance and their control of logistical chains in the service of such innovations rather than focusing on shaping consumers

tastes or even adapting to consumers shifting expectations With this aim in mind this book provides empirical evidence of how social innovations typically developed within niches initially at a relatively small scale can have society wide impacts It also examines the nature of the activism deployed by social innovators and the emergence of a do it yourself form of democracy This book will appeal to all those interested in driving societal change and social innovation to ensure a sustainable and socially just future for all
