

Dichotomous Key to the Animal Kingdom

Purpose: To learn to use a dichotomous classification key.

Materials: Pictures representing all the classes of the subphylum Vertebrata
Pictures representing the different invertebrate phyla
Pictures representing the different classes of the phylum Arthropoda

Procedure:

1. You will be moving and rotating through various stations set up in the room. At each station you will find a picture of an animal in the animal kingdom.
2. You will have a few minutes to look at the picture of the animal, observe its characteristics and determine its classification within the animal kingdom.
3. The picture will be labeled with either the letter "A" or the letter "B." If there is an "A" on the picture, use the key called "Dichotomous Key to the Classes of the Subphylum Vertebrata." Determine the classification of the vertebrate and record your answer in the data table.
4. If the picture is labeled with the letter "B", use the key called "Dichotomous Key to the Phyla of Invertebrates." Determine the classification of the invertebrate and record your answer in the data table.
5. If the picture is labeled with the letter "B", and you key the animal to the phylum Arthropoda, then use the key called "Dichotomous Key to Selected Classes of the Phylum Arthropoda" to determine what class of arthropods it belongs to. Record your answer in the data table.

Dichotomous Key to the Classes of the Subphylum Vertebrata

Use this key for pictures with the letter "A."

1. a. Hair present Class Mammalia
b. Hair absent Go to 2
2. a. Feathers present Class Aves
b. Feathers absent Go to 3
3. a. Jaws present Go to 4
b. Jaws absent Class Agnatha
4. a. Paired fins present Go to 5
b. Paired fins absent Go to 6
5. a. Skeleton is bony Class Osteichthyes
b. Skeleton made of cartilage Class Chondrichthyes
6. a. Skin scales present Class Reptilia
b. Skin scales absent Class Amphibia

Lab Dichotomous Keys Answers:

Science Educator's Guide to Laboratory Assessment Rodney L. Doran, 2002 The book opens with an up to date discussion of assessment theory research and uses Then comes a wealth of sample assessment activities in biology chemistry physics and Earth science Keyed to the National Science Education Standards the activities include reproducible task sheets and scoring rubrics All are ideal for helping students reflect on their own learning during science lab **40 Inquiry**

Exercises for the College Biology Lab A. Daniel Johnson, 2009 Drawing from the author's own work as a lab developer coordinator and instructor this one of a kind text for college biology teachers uses the inquiry method in presenting 40 different lab exercises that make complicated biology subjects accessible to major and nonmajors alike The volume offers a review of various aspects of inquiry including teaching techniques and covers 16 biology topics including DNA isolation and analysis properties of enzymes and metabolism and oxygen consumption Student and teacher pages are provided for each of the 16 topics *Laboratory Exercises for Freshwater Ecology* John E. Havel, 2016-03-17 Limnology stream ecology and wetland ecology all share an interdisciplinary perspective of inland aquatic habitats Scientists working in these fields explore the roles of geographic position physical and chemical properties and the other biota on the different kinds of plants and animals living in freshwaters How do these creatures interact with each other and with their physical environment In what ways have humans impacted aquatic habitats By what methods do freshwater ecologists study these environments With this new laboratory manual Havel provides a variety of accessible hands on exercises to illuminate key concepts in freshwater ecology These exercises include a mixture of field trips indoor laboratory exercises and experiments with some portions involving qualitative observations and others more quantitative With the help of this manual students will develop an appreciation for careful techniques used in the laboratory and in the field as well as an understanding of how to collect accurate field notes keep a well organized lab notebook and write clear scientific reports **Science Experiments, Grades**
