Translating Technical Documentation Without Losing Quality Marc Achteleg,2012 Translating technical documentation such as user manuals online help and other types of user assistance is essentially different from translating other forms of documents If you translate technical documentation in the same way as you translate other texts chances are that your clients mostly technical writers will be quite unhappy with the results For example complex language that makes a novel or sales brochure interesting can be exactly what makes a user manual incomprehensible When translating technical documentation you should understand how your clients have designed their documents for clearness and simplicity Only then can your translation reflect the same principles This book provides you with a compilation of the basic technical writing rules that every technical writer follows When you adhere to the same rules as you translate it s almost guaranteed that both writers and readers will be happy with the quality of your work Audience Professional translators      *Z80/Z8000 Translator User Guide* ,1979

Translating technical documentation such as user manuals online help and other forms of user assistance is fundamentally different from translating other documents For example using rich and diverse language which can make a novel or sales brochure more interesting can make a user manual just incomprehensible When translating technical documentation you

should understand how its writers have designed the document for clearness and simplicity Only then can your translation reflect the same principles and achieve the same high level of quality This book provides you with a compilation of the basic technical writing rules that every trained technical writer follows If you adhere to the same principles in your translations it is almost guaranteed that both the writers your clients and the readers your clients clients will be pleased with the quality of your work Topics covered General rules for writing in a simple concise and unambiguous way Rules on the sentence level such as rules for sentence length sentence structure word order repetitions syntactic cues and more Rules on the word level such as rules for finding short simple common words using strong verbs and avoiding overblown and filler words FAQ on grammar and word choice that often arise when writing technical documentation *TRADOS Translator's Workbench 2*
