David Albert Jones,2004-12-01 We are delighted to announce that this book has been short listed for the prestigious Michael Ramsey prize for the best in theological writing For more information please visit www.michaelramseyprize.org.uk A radical examination of the Christian tradition relating to the human embryo and how this relates to the debate today In recent years the moral status of the human embryo has come to the fore as a vital issue for a range of contemporary ethical debates concerning the over production freezing and discarding of embryos in IVF concerning the use of spare embryos for scientific experimentation and finally concerning the prospect of producing clone embryos These debates have involved not only general philosophical arguments but also specifically religious arguments Many participants have attempted to find precedent from the Christian tradition for the positions they wish to defend It is therefore extraordinary that until *The Soul of the Embryo* there has been no significant work on the history of Christian reflection on the human embryo Here David Albert Jones seeks to tell the story of this unfolding tradition a story that encompasses many different medical moral philosophical and theological themes He starts by examining the understanding of the embryo in the Hebrew Scriptures then moves through early Christianity and the Middle Ages to the Reformation and beyond Finally Albert Jones considers the application of this developed tradition to contemporary situation and questions which contemporary Christian view or views are best regarded as authentic developments of the tradition and which should be regarded as alien to the tradition *The Perennial Satirist* Peter Edgerly Firchow,Hermann Josef Real,2005 This collection of essays primarily honours Bernfried Nugel the teacher and scholar but it also pays homage to Bernfried Nugel the indefatigable worker in the cause of Aldous Huxley studies It is due to this latter manifestation that many of the contributors to this volume know each other personally having met at one or more of the international conferences that Professor Nugel organized and either hosted or co hosted At Munster his home university he has also been instrumental in establishing and heading a center for admirers of Huxley s work along with a fine library of Huxley materials including manuscripts and numerous first editions Series Human Potentialities Studien zu Aldous Huxley zeitgenossischer Kultur Studies in Aldous Huxley Contemporary Culture Vol 7

Beyond Critique Pamela Fraser,Roger Rothman,2017-04-06 Critique has long been a central concept within art practice and theory Since the emergence of Conceptual Art artists have been expected by critics curators and art school faculty to

focus their work on exposing and debunking ideologies of power and domination Recently however the effectiveness of cultural critique has come into question The appearance of concepts such as the speculative the reparative and the constructive suggests an emerging postcritical paradigm Beyond Critique takes stock of the current discourse around this issue With some calling for a renewed criticality and others rejecting the model entirely the book's contributors explore a variety of new and recently reclaimed criteria for contemporary art and its pedagogy Some propose turning toward affect and affirmation others seek to reclaim such allegedly discredited concepts as intimacy tenderness and spirituality With contributions from artists critics curators and historians this book provides new ways of thinking about the historical role of critique while also exploring a wide range of alternative methods and aspirations Beyond Critique will be a crucial tool for students and instructors who are seeking to think and work beyond the critical
