**Model-Driven Development of Advanced User Interfaces** Heinrich Hussmann, Gerrit Meixner, Detlef Zuehlke, 2011-01-16 Model Driven Development MDD has become an important paradigm in software development It uses models as primary artifacts in the development process This book provides an outstanding overview as well as deep insights into the area of model driven development of user interfaces which is an emerging topic in the intersection of Human Computer Interaction and Software Engineering The idea of this book is based on the very successful workshop series of Model Driven Development of Advanced User Interfaces MDDAUI It has been written by the leading researchers and practitioners in the field of model driven development of user interfaces and offer a variety of solutions and examples for Architectures and environments for the

generation of user interfaces User interface development for specific domains and purposes Model driven development in the context of ambient intelligence Concepts supporting model driven development of user interfaces Graph-Theoretic Concepts in Computer Science Herbert Göttler,1988-06-08 This book reflects the scientific program of the annual workshop on Graph theoretic Concepts in Computer Science in 1987 The purpose of this conference is to be the missing link between theory and application of graphs in as many branches of computer science as a conference scheduled for three days without parallel sessions can permit So the organizers of WG 87 addressed a selected group of people with a strong interest in theory and practice The proceedings include latest results on classical graph theoretic problems including formal language theory applied to graphs and how to apply those results to practical problems e g data bases layout of graph operating systems software engineering chemistry and modelling with graphs *Language Prototyping* Arie Deursen,J. Heering,Paul Klint,1996 Language prototyping provides a means to generate language implementations automatically from high level language definitions This volume presents an algebraic specification approach to language prototyping and is centered around the ASF SDF formalism and Meta Environment The volume is an integrated collection of articles covering a number of case studies and includes several chapters proposing new techniques for deriving advanced language implementations The accompanying software is freely available Mergent International Manual ,2009 *Refrigeration Service and Contracting* ,1962 **Enhancing the Internet with the CONVERGENCE System** Fernando Almeida,Maria Teresa Andrade,Nicola Blefari Melazzi,Richard Walker,Heinrich Hussmann,Iakovos S. Venieris,2013-11-27 Convergence proposes the enhancement of the Internet with a novel content centric publish subscribe service model based on the versatile digital item VDI a common container for all kinds of digital content including digital representations of real world resources VDIs will serve the needs of the future Internet providing a homogeneous method for handling structured information incorporating security and privacy mechanisms CONVERGENCE subsumes the following areas of research definition of the VDI as a new fundamental unit of distribution and transaction content centric networking functionality to complement or replace IP address based routing security and privacy protection mechanisms open source middleware including a community dictionary service to enable rich semantic searches applications tested under real life conditions This book shows how CONVERGENCE allows publishing searching and subscribing to any content Creators can publish their content by wrapping it and its descriptions into a VDI setting rights for other users to access this content monitor its use and communicate with people using it they may even update or revoke content previously published Access to content is more efficient as search engines exploit VDI metadata for indexing and the network uses the content name to ensure users always access the copy closest to them Every node in the network is a content cache handover is easy multicast is natural peer to peer is built in time space decoupling is possible Application developers can exploit CONVERGENCE s middleware and network without having to resort to proprietary ad hoc solutions for common supporting functionality Operators can use the network more efficiently better controlling information

transfer and related revenues flows Network design operation and management are simplified by integrating diverse functions and avoiding patches and stopgap solutions Whether as a text for graduate students working on the future of the Internet or a resource for practitioners providing e commerce or multimedia services or scientists defining new technologies CONVERGENCE will make a valuable contribution to the future shape of the Internet      **Component-Based Software**

**Engineering** Ivica Crnkovic, Judith A. Stafford, Heinz W. Schmidt, Kurt Wallnau, 2004-05-26 Component based software engineering CBSE is concerned with the development of software intensive systems from reusable parts components the development of such reusable parts and the maintenance and improvement of systems by means of component replacement and customization Although it holds considerable promise there are still many challenges facing both researchers and practitioners in establishing CBSE as an efficient and proven engineering discipline Six CBSE workshops have been held consecutively at the most recent six International Conferences on Software Engineering ICSE The premise of the last three CBSE workshops was that the long term success of component based development depends on the viability of an established science and technology foundation for achieving predictable quality in component based systems

The intent of the CBSE 2004 symposium was to build on this premise and to provide a forum for more in depth and substantive treatment of topics pertaining to predictability to help establish cross discipline insights and to improve cooperation and mutual understanding The goal of the CBSE 2004 symposium was to discuss and present more complete and mature works and consequently collect the technical papers in published proceedings The response to the Call for Papers was beyond expectations 82 papers were submitted Of those 25 long and 13 short were accepted for publication In all 25 cases the papers were reviewed by three to four independent reviewers The symposium brought together researchers and practitioners from a variety of disciplines related to CBSE      **The Cumulative Daily Digest of Corporation News** ,1929
