Juicy™ Three & Five Installation & Setup Guide

English

CONGRATULATIONS!

You have selected the best hydraulic disc brake for your money, your bike! This manual contains important information for installing and setting up and adjusting your new brakes. To ensure that your Avid Juicy brake performs properly, we recommend that you have them installed by a qualified service technician. This step-by-step guide follows all of our recommendations to help make your riding experience safe, enjoyable and trouble-free.

First, here is some information to get you started:

TRI-ALIGN™ CALIPER POSITIONING SYSTEM™

Avid disc brakes use a unique alignment system called Tri-Align Caliper Positioning System (CPS). These brake systems are designed so that the caliper is perfectly aligned with the rotor, regardless of imperfections in the mounting plate on the fork or frame, giving you full, square pad contact.

PAD BREAK-IN

A new brake system takes from 20 to 40 complete stops to break in and pads. You may begin to notice an increase in braking power after the first ride. Brake noise can occur not only during the break-in period but also on throughout the life of the brake pads. Noise is produced upon friction such as brake rubbing, rider weight, riding style, braking style, and riding conditions (i.e., dust, wet roads, and contamination of friction surfaces).

CHANGING HOSE LENGTHS & BLEEDING

Changing hose lengths and bleeding Juicy disc brakes requires the Avid J-Bay Bleed Kit (refer to the front and back section on page 10.) Please contact your local bike shop or www.avidbikes.com for details.

TOOLS NEEDED

- 1/2" and 9/16" hex keys
- 1/8" 15 tooth screw
- Torque wrench and chain

Brakebush
