

## Guidelines for Project Proposals\*

A technical proposal, often called a "Statement of Work," is a persuasive document. Its objectives are to

1. Identify what work is to be done
2. Explain why this work needs to be done
3. Persuade the reader that the proposers (you) are qualified for the work, have a plausible management plan and technical approach, and have the resources needed to complete the task within the stated time and cost constraints.

What makes a good proposal? One attribute is *appearance*. A strong proposal has an attractive, professional, inviting appearance. In addition, the information should easy to access. A second attribute is *substance*. A strong proposal has a well-organized plan of attack. A strong proposal also has technical details because technical depth is needed to sell your project. Remember: A proposal is a persuasive document.

### Required Format

Format consists of the layout and typography of a document. In formatting your proposal, use the guidelines in Table 1. A template to produce your proposal exists at the following web page:

[http://www.writing.eng.vt.edu/design/proposal\\_template.doc](http://www.writing.eng.vt.edu/design/proposal_template.doc)

One aspect of layout is the incorporation of illustrations. In your proposal, each illustration should have a name and be formally introduced in the text. Illustrations consist of figures and tables. Figures include photographs, drawings, diagrams, and graphs. Each figure should have a stand-alone caption, and the key points and features should be labeled. Tables are arrangement of words and numbers into rows and columns. Use tables to summarize lists that the audience will try to find later (the budget, for instance).

**Table 1.** Format guidelines for requested proposal.

Aspect	Description
Font for headings	Boldface serif or sans serif; size in accordance with hierarchy
Font for text portion	12-point serif such as Times New Roman or Book Antiqua
Margins	Standard, at least 1 inch
Layout	One column, single-sided
Paragraphing	Indented paragraphs, no line skip between paragraphs in a section
Page number	Bottom centered
Figure names	Numbered: Figure 1, Figure 2, Figure 3, and so forth
Figure captions	Below figure in 10 point type
Table names	Numbered: Table 1, Table 2, Table 3, and so forth
Table headings	Above table in 12 point type

Pelz, Peter Groche, 2021-05-26 This open access book reports on methods and technologies to describe evaluate and control uncertainty in mechanical engineering applications It brings together contributions by engineers mathematicians and legal experts offering a multidisciplinary perspective on the main issues affecting uncertainty throughout the complete system lifetime which includes process and product planning development production and usage The book is based on the proceedings of the 4th International Conference on Uncertainty in Mechanical Engineering ICUME 2021 organized by the Collaborative Research Center CRC 805 of the TU Darmstadt and held online on June 7-8 2021 All in all it offers a timely resource for researchers graduate students and practitioners in the field of mechanical engineering production engineering and engineering optimization

**The Mechanical Engineer** William Henry Fowler, 1912 *Pakistan's Nuclear Exclusion* Sana Rahim, 2024 Developed over six chapters Pakistan's Nuclear Exclusion provides an account of how orientalism is a lived experience of post colonial racism injustice and inequality amongst members of the nuclear community in Pakistan The account is produced through

interviews with members of the community consisting of students academics and physicists in Pakistan Rahim offers unique insights into how Pakistan s nuclear community is not only perceived and represented but also how it seeks to operate in a wider nuclear community dominated by Western nuclear powers The provision of such highly contextualised insights is enabled by the book setting out to both a provide analytical space for and b give voice to how orientalism is experienced in the everyday of their lives Consequently the work provides 1 an analysis of how dominant discourses of nuclear management and their pictures of reason are exclusionary 2 an analysis of the core features of orientalism as they pertain to Pakistan s nuclear community and 3 empirical findings which produce categories of the experience of orientalism into areas of the everyday exclusion making a career Islamophobia technology denial and self reliance Pakistan s Nuclear Exclusion is enormously valuable to the research community as well as extremely well conceived and researched In addition much of the methodology chapter offers a level of sophistication and self reflection that translates well in the interview material and its subsequent analysis

**Senior Design Projects in Mechanical Engineering** Yongsheng Ma,Yiming Rong,2021-11-10 This book offers invaluable insights about the full spectrum of core design course contents systematically and in detail This book is for instructors and students who are involved in teaching and learning of capstone senior design projects in mechanical engineering It consists of 17 chapters over 300 illustrations with many real world student project examples The main project processes are grouped into three phases i e project scoping and specification conceptual design and detail design and each has dedicated two chapters of process description and report content prescription respectively The basic principles and engineering process flow are well applicable for professional development of mechanical design engineers CAD CAM CAE technologies are commonly used within many project examples Thematic chapters also cover student teamwork organization and evaluation project management design standards and regulations and rubrics of course activity grading Key criteria of successful course accreditation and graduation attributes are discussed in details In summary it is a handy textbook for the capstone design project course in mechanical engineering and an insightful teaching guidebook for engineering design instructors
