Range:	General Working Population Adults (Canada)
Total Working Time:	48 minutes
Overall Administration Time:	Approx. 2.5 hours
Scores:	Standard Scores (Mean 100, SD 20), and Aptitude Levels (1-9)

The GATB is published in association with Human Resources Development Canada, and is based on 1986 Canadian Norms.

Nelson Education also offers a GATB Certification Course (see page 39).

The GATB is used extensively in Canada in vocational counselling, rehabilitation and occupational selection settings. The GATB profile of occupational aptitudes can be used to determine appropriate career and/or training paths.

GATB measures the following nine distinct aptitudes, based on 12 separate parts of the battery: eight paper-and-pencil tests, and four performance tests.

G – General Learning Ability	V – Verbal Aptitude
N – Numerical Aptitude	S – Spatial Aptitude
P – Form Perception	C – Clerical Perception
K – Motor Co-ordination	F – Finger Dexterity
M – Manual Dexterity	

GATB test results assist counsellors in matching aptitude levels that correspond to the National Occupational Classification (NOC) Career Handbook.

GATB can be used in conjunction with the interest tests such as the Canadian Work Preference Inventory (CWPI), to assist in determining appropriate career paths. (The CWPI is available through Multi Health Systems Inc.)

The GATB Application and Interpretation Manual replaces an earlier publication "Using Tests in Employment Counselling." The newer manual is used in the GATB Certification Course and is a valuable resource to review the GATB.

Getting Started with the GATB

For examiners who are using the GATB for the first time, please consider the GATB Examination Kit listed near the end of the table below. This kit contains all of the necessary materials to test two clients on the

paper-and-pencil portions of the battery (Parts 1 through 8), and to score the tests. After becoming familiar with the GATB, if you wish to test with Parts 9 through 12, purchase a Pegboard ("manual dexterity board") and a Finger Dexterity Board.

Components and Prices for GATB

GATB consists of 12 parts – some components are related to the administration and scoring of specific parts. Most examiners use GATB Form A.

Wing, 2012-12-06 Bernard R Gifford and Linda C Wing Standardized testing has become a ubiquitous feature of American life As a major source of information for reducing uncertainty in the allocation of merit based educational training and employment opportunities testing affects the life chances of individuals Moreover testing influences the way in which our society judges itself and provides for our collective future Test scores may determine a child's admission to kindergarten and promotion to the first grade Most states award the high school diploma only if a student has passed a minimum competency test Major institutions of higher education typically require applicants to supplement their records of academic achievement with scores on college admissions tests In the labor market as a condition of employment or assignment to training programs more and more employers are requiring workers to sit for personnel selection tests Additionally it has become commonplace to use test scores to calibrate our national sociopolitical condition and our capacity to compete with other countries in the global economy In short with increasing frequency and intensity scores on examinations that purport to be objective and precise measures of individual knowledge abilities and potential are playing a critical role in the opportunity marketplace Similarly test scores are exercising growing influence in assessments of our social and economic institutions and in policy decisions about the investments that should be made in each In all these instantiations test scores are at the center of high stakes decision making about the future of individuals and of the nation itself

Bias in Mental Testing Arthur Robert Jensen, 1980 Illuminating detailed methods for assessing bias in

commonly used I Q aptitude and achievement tests Jensen argues that standardized tests are not biased against Englishspeaking minority groups and describes the uses of such tests in education and employment **Review and**

in Counseling Albert Bullard Hood,Richard W. Johnson,1997 Assessment has always played an important role in counseling
This book provides information about the various psychological assessment procedures that are relevant for practicing
counselors The text deals with the use of tests that are most often employed by counselors and it includes case studies Its
purpose is to help counselors become better consumers and interpreters of psychological and educational tests and
assessment procedures It emphasizes the selection interpretation and communication of psychological test results and also
details the importance of integrating test results with other information about the client It is not designed to be a text book
or desk manual on the various tests themselves The first four chapters introduce the reader to basic concepts in
psychological assessment and to the statistical knowledge needed to select and interpret tests Chapters 5 through 15
constitute the bulk of the book Here over 100 tests and other assessment measures are examined The assessments are
divided into three categories cognitive career and life planning and personality In chapters 16 through 18 professional
