Research Methodology for Beginners DR. ASHOK YAKKALDEVI ,2022-12-02 Research is defined as the creation of new knowledge and or the use of existing knowledge in a new and creative way so as to generate new concepts methodologies and understandings Research is not only to develop the process or to find a formula as we do in the science But in the field of social science the research work is oriented towards the solution of a problem or to seek an answer of a question The first step of a research process is to identify a problem The selection of a problem is governed by reflective thinking Unthinking activity is governed too completely by tradition or by emotion Primitive life was largely without effective reflective thought until some intelligent individual conceived of a new solution for an old problem Therefore upper educational groups ever do much careful ordered thinking The normal human mind thinking may be classified into four categories convergent divergent reflective and scientific thinking In reflective thinking individual conceived for a new solution for an old problem but scientific thinking is in terms of carefully organized reflection *Research Methodology* Dr. B.N.
