**Cracking the Code: A quick reference guide to interpreting patient medical notes** Dr Katie Maddock, 2018-01-24  
Cracking the Code covers the basics of the contents of patients medical notes Common medical terminology used in reviewing physiological systems is briefly explained Commonly encountered investigative procedures are defined and their use explained Medical laboratory tests are similarly explored Much of this book concentrates on the secondary care environment because this remains the main setting in which healthcare professionals have free and open access to patient medical notes However the expanding roles of healthcare professionals in the primary care sector mean that all practitioners need to be able to unlock the code of medical terminology and abbreviations It is hoped that this book will therefore be of use not only to the undergraduate pharmacy students for whom it was originally developed but also to other healthcare professionals who routinely access patient medical notes This new edition has been revised and updated to incorporate measurements of body weight and surface area capillary blood gases sepsis screening common drug serum levels and changes to the reporting of cardiac troponins Contents include Section 1 Medical terminology Section 2 Patient medical notes Section 3 Investigative procedures Section 4 Laboratory reports Section 5 Medical abbreviations **Guernsey. *Collaboration and the Future of Education* Gordon Andrews,Wilson J. Warren,James Cousins,2015-10-08 Current educational reforms have given rise to various types of educational Taylorism which encourage the creation of efficiency models in pursuit of a unified way to teach In history education curricula this has been introduced through scripted textbook based programs such as Teacher Curriculum Institute s History Alive and completely online curricula They include the jargon of authentic methods such as primary sources cooperative learning differentiated instruction and access to technology yet the craft of teaching is removed and an experience that should be marked by discovery and reflection is replaced with comparatively empty processes This volume provides systematic models and examples of ways that history teachers can compete with and effectively halt this transformation The alternatives the authors present are based on collaborative models that address the art of teaching for pre service and practicing secondary history teachers as well as collegiate history educators Relying on original research and a maturing body of secondary literature on historical thinking this book illuminates how collaboration can create real historical learning      **History of Cuba; or, Notes of a traveller in the Tropics.
