Part II describes the framework and substance of a research study. It models the pattern generally found in a formal five chapter research study. Each chapter of a thesis or dissertation has a specific purpose and this book focuses on each in an easy to follow structure. Chapter One reviews the headings and contents expected in the introduction of a study. Chapter Two provides advice for writing a literature review. Chapter Three discusses what to include when describing the methodology. These first three chapters form the proposal section of a study. Two additional chapters present results. Chapter Four and provide discussion and conclusions. Chapter Five Appendices offer resources for instructors and students including a rubric for evaluating writing exercises to strengthen skills in APA format, sample purpose statements, a research planning organizer and a guide for scholarly writing. The book is designed overall to be a practical guide and resource for students for their thesis or dissertation process.
