**The First Chapters** Charles E. Hill,2022-01-11 The First Chapters uncovers the origins of the first paragraph or chapter divisions in copies of the Christian Scriptures Its focal point is the magnificent fourth century Codex Vaticanus Vat gr 1209 B 03 perhaps the single most significant ancient manuscript of the Bible and the oldest material witness to what may be the earliest set of numbered chapter divisions of the Bible The First Chapters tells the history of

textual division starting from when copies of Greek literary works used virtually no spaces marks or other graphic techniques to assist the reader It explores the origins of other numbering systems like the better known Eusebian Canons but its theme is the first set of numbered chapters in Codex Vaticanus what nineteenth century textual critic Samuel P Tregelles labelled the Capitulatio Vaticana It demonstrates that these numbers were not as most have claimed late additions to the codex but belonged integrally to its original production The First Chapters then breaks new ground by showing that the Capitulatio Vaticana has real precursors in some much earlier manuscripts It thus casts light on a long continuous tradition of scribally placed visual guides to the reading and interpreting of Scriptural books Finally The First Chapters exposes abundant new evidence that this early system for marking the sense divisions of Scripture has played a much greater role in the history of exegesis than has previously been imaginable
