Critical Perspectives of Educational Technology in Africa Bellarmine A. Ezumah,2020-10-19 This book is a critical cultural evaluation of educational technology adoption in Sub Saharan Africa including projects such as the OLPC One Laptop Per Child It presents efficient ways of improving education delivery among low income communities through designing and implementing congruent educational technologies that incorporate social and cultural proclivities Ezumah defines technology with regards to pedagogy and seeks to debunk the assumption that educational technology consists only of digital and interactive options Additionally she argues for a narrative paradigm shift aimed at validating analog technologies as equally capable of providing necessary and desired educational objectives and outcomes for communities who cannot afford the digital alternatives By comparing African educational systems in precolonial colonial and post colonial times and incorporating the history of technology transfers from the Global North to South the book highlights cultural imperialism development theory neocolonialism and hegemonic tendencies
