Guyton's Textbook of Medical Physiology, 4th South Asia Edition - E-Book Mario Vaz, Anura Kurpad, Tony Raj, 2024-08-08
Guyton and Hall Textbook of Medical Physiology continues this bestselling title's tradition as the world's favorite physiology textbook presenting complex principles in language that is easy to read and understand. The main aim of the Fourth South Asia Edition of Guyton Hall Textbook of Medical Physiology is to meet the needs of undergraduate medical students and faculty in South Asia by aligning the book to modern recommended teaching methods in the subcontinent. The South Asia Edition incorporates several features aimed at aiding learning for students while retaining the flow and explanatory approach. Implementation of the one chapter one lecture model aligning the text with curriculum objectives to enhance appeal for students and faculty. Introduction of easy to read boxes containing clinical information, summaries, lists, and vignettes providing accessible and relevant content. Incorporation of updated Learning Objectives and a Glossary of Terms at the beginning of every chapter facilitating focused learning and understanding. Addition of new multiple choice questions (MCQs) for each chapter promoting active learning and assessment opportunities. *Sleep and its Disorders in Children and Adolescents with a Neurodevelopmental Disorder* Gregory Stores, 2014-10-27. A guide based on modern research about managing sleep disturbances in childhood neurodevelopmental disorders, each of which is considered separately.

Depression and the Divine David C. Wilson, 2018-12-21. David Wilson's initial research into the phenomenon of prophecy in the Hebrew Bible suggested that many of the passages featuring prophets and hitherto considered to be bizarre myths or much edited collections of traditions were in fact sequences of dreams. Moreover, it was possible to compare the structure of these sequences with the structure of a night's sleep hypnogram as revealed by modern sleep research to demonstrate that the sleeper was depressed. This characteristic depressive sleep architecture was then used to show that three characters in particular, Elijah, Jonah, and Adam, compared in the New Testament with Jesus, were all in fact depressed. Quite naturally, this raised further questions concerning the nature of Jesus himself: Was he merely a prophet? If he wasn't, how did he differ? If he was depressed, how was he able to function and succeed in his mission when Elijah and Jonah clearly had such great difficulties? These and other questions are raised throughout this book, and many of them are not new, but they are however changed forever when asked against a contextual background of altered states of consciousness (ASCs) and dreamform in particular. **Sleep Apnea and Snoring E-Book** Michael Friedman, Ofer Jacobowitz, 2018-09-01. come to share my belief that the study of the subjective experiences of animals is one of the most fascinating areas in the whole of biology as well as being of great practical and ethical importance
