Insights in Pediatric Cardiology: 2021 Ruth Heying,Antonio Francesco Corno,2023-01-06 **The Anatomist** Bill B. Hayes,2007-12-26 The classic medical text known as Gray s Anatomy is one of the most famous books ever written Now on the 150th anniversary of its publication acclaimed science writer and master of narrative nonfiction Bill Hayes has written the fascinating never before told true story of how this seminal volume came to be A blend of history science culture and Hayes s own personal experiences The Anatomist is this author s most accomplished and affecting work to date With passion and wit Hayes explores the significance of Gray s Anatomy and explains why it came to symbolize a turning point in medical history But he does much much more Uncovering a treasure trove of forgotten letters and diaries he illuminates the astonishing relationship between the fiercely gifted young anatomist Henry Gray and his younger collaborator H V Carter whose exquisite anatomical illustrations are masterpieces of art and close observation Tracing the triumphs and tragedies of these two extraordinary men Hayes brings an equally extraordinary era the mid 1800s unforgettably to life But the journey Hayes takes us on is not only outward but inward through the blood and tissue and organs of the human body for The Anatomist chronicles Hayes s year as a student of classical gross anatomy performing with his own hands the dissections and examinations detailed by Henry Gray 150 years ago As Hayes s acquaintance with death deepens he finds his understanding and appreciation of life deepening in unexpected and profoundly moving ways The Anatomist is more than just the story of a book It is the story of the human body a story whose beginning and end we all know and share but that like all great stories is infinitely rich in between Rhetoric in the Flesh T. Kenny Fountain,2014-07-11 Rhetoric in the Flesh is the first book length ethnographic study of the gross anatomy lab to explain how rhetorical discourses multimodal displays and embodied practices facilitate learning and technical expertise and how they shape participants perceptions of the human body By investigating the role that discourses displays and human bodies play in the training and socialization of medical students T Kenny Fountain contributes to our theoretical and practical understanding of the social factors that make rhetoric possible and material in technical domains Thus the book also explains how these displays discourses and practices lead to the trained perspective necessary for expertise This trained vision is constructed over time through what Fountain terms embodied

CURRICULUM REFORM IN PAKISTAN Amna Afreen,2022-02-25 I have written this book in an effort to explore how the history of Pakistan has resulted in the critical problems weighing down its education system The book examines the questions Why and how has a small elite class come to rule Pakistan And how has their rule worsened the country s problems The focus will be to critically examine the elements of the Pakistani national curriculum and madrasas and their effects on Pakistani society The book represents the fusion of my experiences in Pakistan with extensive literature analysis interviews and textbook analysis This research began when I came to the United States in January 2015 through the SAR program I wanted to know the answers to profoundly unsettling questions How can a society be so intolerant that a scholar educated solely in Pakistan is disregarded and assassinated while many Western educated scholars with traditional insular thoughts are not only appreciated but flourishing I wanted to know why Pakistani elites have so much power and freedom while lower classes are profoundly oppressed Elites who barely pay taxes have been in power for generations while those that pay taxes suffer from sky high inflation The influential religious leaders mostly belong to the elite class while their followers are mostly lower class Ruling families and social classes mostly control appointed positions Do those in power not have a responsibility to speak on issues of social justice rather than limiting themselves in claiming that theirs is the only true form of Islam Why don t they work to end the disparity of quality education between classes in Pakistan Instead many elites run their own lucrative elite Islamic schools More importantly why do the ulama which literally means those who possess knowledge ilm particularly of Islam maintain a tight hierarchical system in the madrasa Islamic seminary community that rarely allows poor intelligent students to attain leadership positions Why are the ulama silent in the face of ruthless murder of and discrimination against Pakistani minorities Book Review Pakistan Educational Reforms is a major study of education in Pakistan and its national and madrasa curriculum that fosters national and religious sectarian divisions intolerance and conflicts Dr Amna Afreen documents the political socio economic and religious causes limited government funding widespread poverty and illiteracy and the poor training and performance of teachers that have produced a failed educational system at urban and rural government and religious schools madrasa and offers a series of potential solutions and reforms John L Esposito University Professor and Founding Director of The Alwaleed Center for Muslim Christian Understanding Georgetown University
