Lifepac History & Geography Grade 11 U.S. History Alpha & Omega Publishing, 2001-03 *Measuring History* S. G. Grant, 2009-03-01 *Measuring History* complements the cases presented in *Wise Social Studies Practices* Yeager Davis 2005 Yeager and Davis highlight the rich and ambitious teaching that can occur in the broad context of state level testing In this book the chapter authors and I bring the particular state history tests more to the fore and examine how teachers are responding to them At the heart of *Measuring History* are cases of classroom teachers in seven states Florida Kentucky Michigan New York Texas Mississippi and Virginia where new social studies standards and new and generally high stakes state level history tests are prominent In these chapters the authors describe and analyze the state s testing efforts and how those efforts are being interpreted in the context of classroom practice The results both support and challenge prevailing views on the efficacy of testing as a vehicle for educational reform Catherine Horn University of Houston and I lay the groundwork for the case studies through a set of introductory chapters that examine the current environment the research literature and the technical qualities of history tests **Reading Like a Historian** Avishag Reisman, 2011 Enthusiasm about the instructional potential of primary sources dates to the late 19th century and has been echoed recently in the work of literacy experts historians and educational psychologists Yet no extended intervention study has been undertaken to test the effectiveness of primary source instruction in real history classrooms This study with 236 eleventh grade students in five San Francisco high schools represented the first large scale extended curriculum intervention in disciplinary reading in an urban district The Reading Like a Historian RLH curriculum constituted a radical departure from traditional textbook driven instruction by using a new activity structure the Document Based Lesson in which students used background knowledge and disciplinary reading strategies to interrogate and then reconcile historical accounts from multiple texts A quasi experiment control design measured the effects of a six month intervention on four dimensions 1 students historical thinking 2 their ability to transfer historical thinking strategies to contemporary issues 3 their mastery of factual knowledge and 4 their growth in general reading comprehension MANCOVA analysis yielded significant main effects for the treatment condition on all four outcome measures Qualitative analyses of videotaped classroom lessons were conducted to determine the frequency and nature of whole class text based discussion Only nine whole class text based discussions were identified in over 100 videotaped classroom lessons despite the presence of instructional materials explicitly designed to support student discussion of debatable historical questions Analysis of teacher and student participation suggests a relationship between active teacher facilitation that reviews background knowledge and poses direct questions about texts and higher levels of student argumentation This dissertation is structured as three free standing papers each of which addresses one aspect of the larger study In the first paper I discuss the design of the quasi experimental study and report quantitative findings In the second paper I locate teacher facilitation of whole class historical discussion in the literature on classroom discourse and I

propose a developmental framework for analyzing student historical argumentation in classroom discussion In the third and final paper I discuss the theoretical underpinnings of the intervention curriculum and offer two examples to illustrate the structure of the Document Based Lesson Passing the Test Marita Moll,2004 **Resources in Education** ,1990

G. Grant,Jill M. Gradwell,2010-07-16 In the case studies that make up the bulk of this book middle and high school history teachers describe the decisions and plans and the problems and possibilities they encountered as they ratcheted up their instruction through the use of big ideas Framing a teaching unit around a question such as Why don t we know anything about Africa offers both teacher and students opportunities to explore historical actors ideas and events in ways both rich and engaging Such an approach exemplifies the construct of ambitious teaching whereby teachers demonstrate their ability to marry their deep knowledge of subject matter students and the school context in ways that fundamentally challenge the claim that history is boring
