

10 ways to become a more confident person

We all have two lives – the life we live and the life we want. But anxiety and self-doubt can prevent us from realizing our potential and leading happier, more fulfilling lives.

If you're keen on boosting your confidence – there's good news: like any other skill, confidence can be built and improved upon. Here's how to start.

Express yourself

If left unchecked, poor self-confidence can stop you from living your life.

Good self-confidence, on the other hand, allows you to achieve the real goals in your life – whatever they may be.

The 3 biggest myths about self confidence

1

*"It's something
you're born with."*

Wrong – self-confidence is something that can be learned, just like anything else.

2

*"I'd feel more
confident if I
knew I'd
succeed at
something
new."*

Not true – it might be harder to get back on the ladder, but you'll rise again harder and stronger for it.

3

*"Once it's gone,
it's gone for
good."*

Wrong again – how can you know you'll succeed if you've never tried? Learn to embrace the excitement of uncertainty.

By acting with a little more confidence in difficult situations, you can subtly transform your life from the inside out.

Confidence Culture Shani Orgad, Rosalind Gill, 2021-12-06 In Confidence Culture Shani Orgad and Rosalind Gill argue that imperatives directed at women to love your body and believe in yourself imply that psychological blocks rather than entrenched social injustices hold women back Interrogating the prominence of confidence in contemporary discourse about body image workplace relationships motherhood and international development Orgad and

Gill draw on Foucault's notion of technologies of self to demonstrate how confidence culture demands of women near constant introspection and vigilance in the service of self improvement. They argue that while confidence messaging may feel good it does not address structural and systemic oppression. Rather confidence culture suggests that women along with people of color, the disabled and other marginalized groups are responsible for their own conditions. Rejecting confidence culture's remaking of feminism along individualistic and neoliberal lines, Orgad and Gill explore alternative articulations of feminism that go beyond the confidence imperative.

But when we depend on the praise, admiration or appreciation of others for our sense of self worth we become trapped in an exhausting and debilitating cycle of people pleasing relationships where we always give and rarely receive. The most common advice we hear: Start putting your own needs first, doesn't work because we do love helping other people. Thankfully the solution to the people pleaser's problem isn't to fundamentally change who you are, it's to fundamentally change where you find your worth. In this freeing book Dr. Mike Bechtle shows you stop letting your fears of rejection, criticism, invisibility or inadequacy drive your actions and start rebuilding your sense of self worth from the inside out. When you do you'll discover that what you once thought of as a struggle is actually a strength.
