Multicultural Counseling Sara E. Schwarzbaum, Anita Jones Thomas, 2008-01-31 I so thoroughly enjoyed your class and I thought the textbook was excellent The autobiographies were extremely beneficial to me as jumping off points to explore multicultural terms and concepts Your fair selection of individuals with such varied and complex backgrounds made it impossible for any of us to fall into pet political or ideological paradigms right or left Thank you again for such a good learning experience Victoria Herbert student at Claremont University I really liked the textbook The story format is superb because it allows you enter into ideas and concepts experientially This tends to make them much more comprehensible and enduring than definitions or third person explanations It also greatly increased my empathy for certain populations Rachel's story about the transgender child was extremely powerful in this regard Finally stories have a strong convincing quality It's hard to argue with someone's experience Stephen Schubert I liked it I actually enjoyed reading it which I can't always say about grad school textbooks I thought that it was easy to read and follow It gave valuable background information which tied in history and current events well This allowed me to more clearly understand society as a whole I really liked the vignettes looking at people's experiences from different cultures backgrounds etc it enabled me to better understand where people were coming from and their worldviews It gave thorough descriptions of groups theories and sociology psychology concepts This helped me to better understand people's struggles Julie McShane I actually thought it was one of the better textbooks I've had in the program specifically because of the life stories I always think case studies are very effective because your learning is within a real life context rather than relying on just theories and then trying to apply those theories to actual situations which can be difficult Lorraine Hayes Northeastern Illinois University Story is one of the most powerful ways to creating meaning This collection of life stories offers compelling narratives by individuals from different races ethnic groups religions sexual orientations and social classes By weaving these engaging stories with relevant theoretical topics this unique textbook provides deeper levels of understanding on how cultural factors influence identity personality worldview and mental health Using a content theme analysis Dimensions of Multicultural Counseling A Life Story Approach allows readers to easily grasp the relationship between multiple dimensions and the formation of identity Key Features and Benefits Combines theory and practice as each life story is followed by a clinical applications section which contain practical ideas for working with clients who have similar stories Allows for easy classroom assignments since each section in the book can be read independently Devotes full chapters to topics not found in other textbooks Oppression and Resilience Sexual Orientation Multicultural Theory Offers useful toolbox activities which gives students additional resources for further exploration Praise
