The Postcolonial Condition of Names and Naming Practices in Southern Africa Tendai Mangena, Oliver Nyambi, Charles Pfukwa, 2016-08-17 *The Postcolonial Condition of Names and Naming Practices in Southern Africa* represents a milestone in southern African onomastic studies The contributors here are all members of and speakers of the cultures and languages they write about and together they speak with an authentic African voice on naming issues in the southern part of the African continent The volume's overarching thesis is that names are important yet often underestimated socio-political cultural sites on which some of the most significant events and processes in the post colony can be read The onomastic topics covered in the book range from the names of traditional healers and male aphrodisiacs to urban landscapes and street naming from the interface between Chinese and African naming practices to the names of bands of musicians and mini bus taxis There is a strong section on literary onomastics which explores how names have been variously deployed by southern African fiction writers for certain semantic aesthetic and ideological effects The cultures and languages covered in this volume are equally wide ranging and while some authors focus on single languages and cultures for example Thembu Xhosa Shona others look at inter-cultural influences such as the
