O'Reilly, 2010 Conjugal Chastity in Pope Wojtyla explains how Karol Wojtyla philosopher theologian and Pope tried to show how the sexual act within the context of marriage is an expression of love After explaining how love as goodwill is the foundation of conjugal love the correct relationship between love and justice is clarified The negative dimension of the personalistic norm of Wojtyla is then critically examined Conjugal love is explained in terms of conjugal beneficence based on conjugal benevolence This love leads to total self giving in each conjugal act The procreative meaning of the conjugal act seems to be its most formal element the soul of the act so to speak the unitive element is described as an essential property of this act something which necessarily flows from the conjugal act which is open to life Chastity is the virtue that allows sexuality to be integrated into a love which is truly personal and reflects Trinitarian Love Feeling Time Amit S. Yahav, 2018-03-19 Literary historians have tended to associate the eighteenth century with the rise of the tyranny of the clock the notion of time as ruled by mechanical chronometry The transition to standardized scheduling and time discipline the often told story goes inevitably results in modernity's time keeper societies and the characterization of modern experience as qualitatively diminished In Feeling Time Amit Yahav challenges this narrative of the triumph of chronometry and the consequent impoverishment of individual experience She explores the fascination eighteenth century writers had with the mental and affective processes through which human beings come not only to know that time has passed but also to feel the

durations they inhabit Yahav begins by elucidating discussions by Locke and Hume that examine how humans come to know time noting how these philosophers often consider not only knowledge but also experience She then turns to novels by Richardson Sterne and Radcliffe attending to the material dimensions of literary language to show how novelists shape the temporal experience of readers through their formal choices Along the way she considers a wide range of eighteenth century aesthetic and moral treatises finding that these identify the subjective experience of duration as the crux of pleasure and judgment described more as patterned durational activity than as static state Feeling Time highlights the temporal underpinnings of the eighteenth century s culture of sensibility arguing that novelists have often drawn on the logic of musical composition to make their writing an especially effective tool for exploring time and for shaping durational experience

Future and Fantastic Worlds Sheldon Jaffery,1987-01-01 Future and Fantastic Worlds embodies an unusual approach to the field of bibliographic research including over 700 annotations of every DAW book published through mid 1987 with indexes by author artist and title providing a massive guide to modern SF writers and their works with much background data Interspersed throughout the book are numerous wry irreverent and amusing observations offered by the late and highly respected researcher in this extremely valuable genre tool
