This guide combines best practice recommendations from national research with direct service tactics employed successfully in multiple counties. Included are the necessary components to implement a collaborative, community-centered intervention system that meets the needs of the county, family, and individual. With the understanding that each county carries its own strengths, barriers, and resources, these tools serve as a model for assessing and adapting the system to cater to the unique needs of each area in which it is implemented. This text helps facilitate the coordination and collaboration necessary to foster comprehensive systems and individualized planning for youth. **Strategic Social Media** L. Meghan Mahoney, Tang Tang, 2016-10-31 *Strategic Social Media* is the first textbook to go beyond the marketing plans and how-to guides and provide an overview of the theories, action plans, and case studies necessary for teaching students and readers about utilizing social media to meet marketing goals. Explores the best marketing practices for reaching business goals while also providing strategies that students and readers can apply to any past, present, or future social media platform. Provides comprehensive treatment of social media in five distinct sections: landscape, messages, marketing, and business models, social change, and the future. Highlights marketing strategies grounded in research that explains how practitioners can influence audience behaviour.
