Bilingualism in Schools and Society is the ideal text for courses on bilingualism in language education programs *Virtual Victorians* Veronica Alfano, Andrew Stauffer, 2016-01-18 Exploring how scholars use digital resources to reconstruct the 19th century this volume probes key issues in the intersection of digital humanities and history Part I examines the potential of online research tools for literary scholarship while Part II outlines a prehistory of digital virtuality by exploring specific Victorian cultural forms **The Missouri Review**, 2014 *History Lessons* S.G. Grant, 2014-04-04 In this book extended case studies of two veteran teachers and their students are combined with the extant research literature to explore current issues of teaching learning and testing U S history It is among the first to examine these issues together and in interaction While the two teachers share several similarities the teaching practices they construct could not be more different To explore these differences the author asks what their teaching practices look like how their instruction influences their students understandings of history and what role statewide exams play in their classroom decisions *History Lessons Teaching Learning and Testing in U S High School Classrooms* is a major contribution to the emerging body of empirical research in the field of social studies education chiefly in the subject area of history which asks how U S students make sense of history and how teachers construct their classroom practices Three case study chapters are paired with three essay review chapters intended to help readers analyze the cases by looking at them in the context of the current research literature Two concluding chapters extend the cases and analyses the first looks at how and why the teachers profiled in this book construct their individual teaching practices in terms of three distinct but interacting sets of influences personal organizational and policy factors the second explores the prospects for promoting what the author defines as ambitious teaching and learning Many policymakers assume that standards based reforms support the efforts of ambitious teachers but until we better understand how they and the students in their classes think and act that assumption is hollow at best This book is a must have for faculty and students in the field of social studies education and broadly relevant across the fields of curriculum studies and educational policy Desegregation State Annie S. Mendenhall, 2022-04-15 The only book length study of the ways that postsecondary desegregation litigation and policy affected writing instruction and assessment in US colleges *Desegregation State* provides a history of federal enforcement of higher education desegregation and its impact on writing programs from 1970 to 1988 Focusing on the University System of Georgia and two of its public colleges in Savannah one a historically segregated white college and the other a historically Black college Annie S Mendenhall shows how desegregation enforcement promoted and shaped writing programs by presenting literacy remediation and testing as critical to desegregation efforts in southern and border states Formerly segregated state university systems crafted desegregation plans that gave them more control over policies for admissions remediation and retention These plans created literacy requirements admissions and graduation tests remedial classes and even writing centers and writing across the curriculum programs that reshaped the landscape of college writing instruction and denied the demands of Black students civil rights

activists and historically Black colleges and universities for major changes to university systems This history details the profound influence of desegregation and resistance to desegregation on the ways that writing is taught and assessed in colleges today Desegregation State provides WPAs and writing teachers with a disciplinary history for understanding racism in writing assessment and writing programs Mendenhall brings emerging scholarship on the racialization of institutions into the field showing why writing studies must pay more attention to how writing programs have institutionalized racist literacy ideologies through arguments about student placement individualized writing instruction and writing assessment Writing as Punishment in Schools, Courts, and Everyday Life Spencer Schaffner, 2019-06-11 A probing and prescient consideration of writing as an instrument of punishment Writing tends to be characterized as a positive aspect of literacy that helps us to express our thoughts to foster interpersonal communication and to archive ideas However there is a vast array of evidence that emphasizes the counterbelief that writing has the power to punish shame humiliate control dehumanize fetishize and transform those who are subjected to it In Writing as Punishment in Schools Courts and Everyday Life Spencer Schaffner looks at many instances of writing as punishment including forced tattooing drunk shaming court ordered letters of apology and social media shaming with the aim of bringing understanding and recognition to the coupling of literacy and subjection Writing as Punishment in Schools Courts and Everyday Life is a fascinating inquiry into how sinister writing can truly be and directly questions the educational ideal that powerful writing is invariably a public good While Schaffner does look at the darker side of writing he neither vilifies nor supports the practice of writing as punishment Rather he investigates the question with humanistic inquiry and focuses on what can be learned from understanding the many strange ways that writing as punishment is used to accomplish fundamental objectives in everyday life Through five succinct case studies we meet teachers judges parents sex traffickers and drunken partiers who have turned to writing because of its presumed power over writers and readers Schaffner provides careful analysis of familiar punishments such as schoolchildren copying lines and more bizarre public rituals that result in ink covered bodies and individuals forced to hold signs in public Schaffner argues that writing based punishment should not be dismissed as benign or condemned as a misguided perversion of writing but instead should be understood as an instrument capable of furthering both the aims of justice and degradation The Encyclopedia Americana ,1927 *The Georgia Review* ,2014 The Methuen Drama Handbook of Gender and Theatre Sean Metzger,Roberta Mock,2023-12-28 Shortlisted for the 2024 TaPRA Edited Collection Prize This is a guide to contemporary debates and theatre practices at a time when gender paradigms are both in flux and at the centre of explosive political battlegrounds The confluence of gender and theatre has long created intense debate about representation identification social conditioning desire embodiment and lived experience As this handbook demonstrates from the conventions of early modern English Chinese Japanese and Hispanic theatres to the subversion of racialized binaries of masculinity and femininity in recent North American African Asian Caribbean and European productions the matter of

gender has consistently taken centre stage This handbook examines how critical discourses on gender intersect with key debates in the field of theatre studies as a lens to illuminate the practices of gender and theatre as well as the societies they inform and represent across space and time Of interest to scholars in the interrelated areas of feminist gender and sexuality studies theatre and performance studies cultural studies and globalization and diasporic studies this book demonstrates how researchers are currently addressing theatre about gender issues and gendered theatre practices While synthesizing and summarizing foundational and evolving debates from a contemporary perspective this collection offers interpretations and analyses that do not simply look back at existing scholarship but open up new possibilities and understandings Featuring essential research tools including a survey of keywords and an annotated play list this is an indispensable scholarly handbook for anyone working in theatre and performance
